THE SENTINEL.

BENJAMIN F. WADDY,
Georgetown, D. C. is our authorized Agent for receiving subscriptions and advertisements.

MARYLAND.—The Douglas men in this State are not numerous enough in some places to make delegates of. The Baltimore *Republican* illustrates this difficulty in the following paragraph:

"Col. Rutledge, one of the Douglas meeting of Harford county which nominated the delegates to the convention which met here, on the 16th instant, turns out to be a thorough-going Breckinridge man. He says that, being in Belair, and finding the two *Douglas men* in it, having nobody to offer resolutions or make motions, in the kindness of his heart, he, to oblige the *presiding* officer, *made the motion*, and the *chairman and secretary* voted themselves delegates; while the Colonel left the *meeting*, as he met it, an out-and-out Breckinridge man, and dead against all squatter sovereignty."

On the other hand, the Democratic sentiment runs strongly for the true Democratic nominees, as the Frederick *Citizen* thus shows:

"Ex-Governors Grayson, P. F. Thomas, Lowe, and Ligon are all for Breckinridge and Lane. Gov. Grayson was the first Democratic governor elected by the people in Maryland and Gov. Ligon was the last. Ex-Gov. Pratt, who has co-operated with the Democratic party since the advent of Know-nothingism, is also for Breckinridge and Lane.

"Stewart, Hughes, and Kunkel, the three Democratic members of Congress from this State are *all* for Breckinridge and Lane, and all the Democratic candidates for Congress in the three other districts of the State last fall, are for Breckinridge and Lane. Gen. Bowie, Augustus R. Sellers, J. T. Stoddard, J. D. Jones, J. R. Franklin, J. W. Crisfield, Henry G. S. Key, Joshua Vansant, Wm. T. Hamilton—and other ex-members of Congress that we cannot at this moment think of—are all for Breckinridge and Lane.

"Senator Pearce, who as a Whig and Democrat has been in the United States Senate for the last 18 years is for Breckinridge and Lane—all the Democratic County Central Committees, but one, are for Breckinridge and Lane—*all* the Democratic presses in the State with two exceptions are for Breckinridge and Lane. Under such circumstances will any *good and true Democrat* in Maryland, permit himself to be led by a few ambitious and revengeful leaders of the Douglas interest? Under such circumstances will he unite in the conspiracy to throw the electoral vote of Maryland for the nominees of the Know-nothing party. Every Democratic vote that is cast for Douglas, only tends to give the State to the Know-nothings—ALL men who *call* themselves Democrats must *remember this*."

SENATOR HAMLIN A LOBBYIST.—We have not been in the least surprised at the charge which has been recently preferred against the black-republican nominee for Vice President, to the effect that while a Senator here he has been guilty of accepting money to procure the passage of bills through Congress, and, in consequence of such money consideration, has personally solicited the votes of members for the measures in behalf of which he had been fed. This is the same sort of business for which O. B. Matterson and several other members were hooted out of the Thirty-third Congress, which caused the black-republican party in that body to be likened to the company of the Forty Thieves, and which disgusted everybody in the country, except the fanatics themselves, with the corruptions of that party.—Besides those driven out of the House for corruption, numbers of the black-republican members who could not be clearly convicted of having taken money for their votes, or for lobbying measures on their passage, were strongly suspected; but, we believe, it has only lately been thought that the same corrupt practices were indulged in by republican senators. The charge is now that Senator Hamlin did receive a sum of money for lobbying a bill through Congress; and we repeat that we are not surprised that the charge should be made, nor shall we be if it is fully authenticated.

A man who is politically dishonest is likely to be morally so; and Mr. Hamlin's political career is therefore not calculated to inspire any one with high confidence in his integrity as a legislator. A renegade, when he could only obtain office by being one, he has always been liable to the suspicion of having bartered away his principles for reward, or otherwise of having professed principles which he was willing to betray even without compensation.

The price alleged to have been paid to Mr. Hamlin is seven thousand dollars. He may have been to that amount serviceable to the measure which he undertook to lobby through Congress. We take it for granted that the American people will never elevate to the second office in the gift of the nation a man who, besides being immeasurably odious from his abolition doctrines, is also liable to the charge of being a venal legislator.—*Constitution.*

PROSPECTS OF MR. BRECKINRIDGE.—The prospects of Breckinridge were never, in our opinion, more promising than they are at present. A large number of the Southern States he is sure of, even if the Douglas men unite with the Bell men against him, as it is not improbable they will. In most, if not all, the *other* Southern States he has a better chance than either of the opposing candidates separately, and can only be defeated by a combination of pretended extra-line democrats with the regular opposition against real democrats. The Breckinridge men have never done this in a single instance, that we are aware of.—*N. Y. Journal of Commerce.*

"PROTECTION TO SLAVE PROPERTY IN THE TERRITORIES—MR DOUGLAS'S DOCTRINE OF "UNFRIENDLY LEGISLATION."—This is discussed at considerable length in the "World" newspaper of New York. The article concludes thus:

"When the Douglas party admits that the Constitution gives to slaveholders the *right* to settle in the Territories they virtually admit all for which the Breckinridge party contend. The latter are the more logical and consistent; but both stand virtually on the same ground. It is unworthy the position of a statesman like Mr. Douglas to concede the right of the South, and then suggest a way of rendering that right a nullity by a trick of territorial legislation."

The rail-splitting humbug was lately illustrated by the parade in New York of a company called the Rail-Splitters' Battalion.—The members were attired in a uniform consisting of black cap and cape, and each man carried a rail, on the top of which was a lighted flying torch. The officers were similarly attired, but carried a colored hand lamp.—These fellows wore black caps—we suppose, because they are going to be politically executed; but, after all fools' caps would have been more appropriate.

ARKANSAS ELECTION.—The latest news from Little Rock informs us of the election of Henry M. Rector, independent democrat, as governor, the re-election of the Hon. Thomas C. Hindman, democrat, to Congress from the northern district, and Mr. Hanly, democrat, in the southern district. All of these gentlemen are staunch friends of Breckinridge and Lane.—*Memphis Appeal.*

☞ The Agricultural and Mechanical Association of St. Louis offer a premium of $1,500 for the best roadster stallion in harness, besides several premiums of $1,000 each for horses, bulls, &c., as usual. That society is based upon stock locally owned, and has never, we understand, received a dollar of State or municipal aid.

NEW YORK STATE DOUGLAS CONVENTION.—This body completed its labors, with the assistance of the Bell and Everett committee, and besides the State Ticket, have nominated an electoral ticket, composed of a mixture of Douglas men and Bell and Everett men.

☞ Mrs. M. Frederick, of Augusta, Ga., has made a donation of $2,000 to the Catholic church in that city.

WILLOUGHBY'S

Patent Gum-Spring & Gum-Cylinder FEED ROLLER GRAIN DRILL,

—WITH—

WAGNER'S GUANO ATTACHMENT.

AT THE EXPIRATION of a reasonable time for trial, if it is not proven to be THE BEST DRILL IN USE, IT CAN BE RETURNED.

Among its peculiar advantages, are—

FIRST. The teeth are so constructed with rubber springs, that when they come in contact with roots, rocks, stumps or stones, or other obstructions, not over sixteen inches high, they spring back, pass over, and immediately regain their former position—avoiding the necessity of stopping to put in wooden pins, as in other Drills. Newly cleared land can be seeded with this Drill. The spring can be set to drill the hardest kind of ground, but they will suddenly yield when they meet with a firm obstruction.

SECOND. The arrangements for distributing the seed, is by two vulcanized rubber rollers, revolving together, which discharge the grain in a constant stream, without breaking it or choking; and no irregularity of the ground, or fast or slow motion of the team, will vary the quantity sown to the acre. It cannot be choked by straws or white caps in the wheat, as the rollers will carry them through. The quantity sown is regulated to any desired amount instantly, when standing or in motion.

THIRD. When the teeth are raised by the lever, the seed and measure are instantly stopped. The Drill can be drawn from field to field without leaking or wasting the grain. When the teeth are let down, the feed starts immediately when in motion. It sows WHEAT, RYE, OATS and BARLEY, with the same hopper, and requires no change; also, all kinds of GRASS SEEDS, if desired.

The Guano Attachment

is most complete, and can be regulated to sow the desired quantity by the moving of the slide. The guano is sown in the trench with the wheat and covered.

☞ The Machine is WARRANTED TO WORK WELL, and to be durable, with proper care.

AT A PRICE TO SUIT THE TIMES.
