THE SENTINEL.

BENJAMIN F. WANDY, Georgetown, D. C. is our authorized Agent for receiving subscriptions and advertisements.

A NEW POLITICAL MOVEMENT—ANOTHER PRESIDENTIAL TICKET.—The St. Mary's Beacon contains a call signed by H. G. Harris, G. C. Morgan, W. H. Briscoe, J. T. Blackstone, G. W. Morgan, and many other prominent citizens, convening a meeting of the Democrats of that county, at Leonard Town, on Saturday, the 1st of September next, for the purpose of placing Chief Justice Taney, of Maryland, and Judge Samuel Nelson, of New York, formally before the country, as the Democratic candidates for the Presidency and Vice-Presidency. The call refers to the probability of the election of Lincoln, in the present divided condition of the Democratic party, and adds:

"This result will be fraught with tremendous consequences, in which our beloved State, county and dearest family relatives, will be all involved. We believe that the Democratic party, concentrated and united, can prevent this result, and peaceably at the polls in November, stay the march of the faithless traitors at the North, who are openly threatening, in the event of their success, to trample upon our dearest rights and violate our peace! Our object should then be to bring about this union of our party, which, under present circumstances, seems to be hopelessly divided. Douglas and Johnson on the one side, and Breckinridge and Lane on the other, must agree to retire, or they must be retired from the contest, and the party must hail other men by acclamation as their candidates for the Presidency and Vice-Presidency. Thanks to the conservative characters of the men, as well as for the elevated positions they occupy, and which have placed them above and beyond political aspirations, we can hail Chief Justice Roger B. Taney as a name worthy of the high office of the Presidency, and Judge Samuel Nelson, of New York, as worthy of the Vice-Presidency of the United States."

☞ There is very little likelihood that the venerable Chief Justice Taney could be induced to accept the nomination, however flattering the circumstances under which it might be tendered. This new political movement will not, therefore, we presume, amount to much.

☞ REASONS FOR ABANDONING DOUGLAS.—The Syracuse Courier, one of the most influential Democratic papers in the North, gives the following reasons for taking down the names of Douglas and Johnson, and hoisting those of Breckinridge and Lane:

"We will not this morning go into a lengthy explanation of the reason which have determined our action in this respect. As an eyewitness of the occurrences at Charleston and Baltimore, we cannot accord to Mr. Douglas the prestige of a regular nomination, and, therefore, we cannot be bound by any party allegiance to support him. In looking over the field we cannot regard his election as even possible, or satisfy our mind that he is even certain of receiving the electoral vote of a single State. The importance of defeating Mr. Lincoln and the Republicans cannot, therefore, be brought as an argument to influence Democrats in his favor.

"We did hope that some arrangements might and would be made, after the excitement attending the Convention was over, by which a united vote could be cast in a direction that would secure the election of a Democrat to the Presidency but the official pronouncements of the National Executive Committee of the friends of Judge Douglas, recently issued in which all idea of union, concession and consolidation is emphatically repudiated, and all arrangement for combining the Democratic vote of any portion of the country denounced, has effectually dissipated that hope, and we can now see the path of duty only in a vigorous support of Breckinridge and Lane, the Democratic candidates of the Democracy of Democratic States."

THE PRINCE OF WALES.—It is estimated that the reception of his Royal Highness, the Prince of Wales, will cost the provincial government of the Canadas no less a sum than $1,000,000, independent of the vast amounts spent by the different towns.

☞ Mr. Pearre, in his speech before the Bell and Everett Club on Saturday night last, said: "That in his solemn judgment the Douglas party was nearer right on the doctrine of slavery than the Breckinridge party." That may be Mr. Pearre's opinion. Is it the doctrine of the Bell and Everett party South? If the South believed that the Bell and Everett party held this opinion in common with Mr. Pearre, Bell and Everett could not get the vote of one single southern State in this Union. Mr. Pearre had better be cautious how he departs from the broad mantle of the constitution.—He had better take a lesson from the former secretary of the Know-Nothing lodge, who has certainly not yet forgotten the rules of secrecy for which that order was so famous.—*Cumberland Bulletin.*

WISCONSIN POLITICS.—The following nominations have been made by the Bell and Everett party in Wisconsin for members of Congress: First district, Robert Chandler; second district, H. F. Pixley; third district, Richard Dart.

☞ A monument is about being erected to officer Wm. Loughrey, recently killed while attempting to arrest a robber at Cambridge, Mass.

☞ The Bradford (Vt.) Telegraph has come out in favor of Breckinridge and Lane.

WILLOUGHBY'S

Patent Gum-Spring & Gum-Cylinder

FEED ROLLER

GRAIN DRILL,

—WITH—

WAGNER'S GUANO ATTACHMENT.

AT THE EXPIRATION of a reasonable time for trial, if it is not found to be THE BEST DRILL IN USE, IT CAN BE RETURNED.

Among its peculiar advantages, are—

FIRST. The teeth are so constructed with rubber springs, that when they come in contact with stones, rocks, stumps or other obstructions, not over three inches high, they spring back, go over, and immediately resume their former position—avoiding the necessity of stopping to put in wooden pins, as in other Drills. Newly cleared land can be seeded with this Drill. The teeth have been told to the hardest land of ground, but they will suddenly yield when they meet with a firm obstruction.

SECOND. The arrangements for distributing the seed, by two vulcanized rubber rollers, revolving together, which discharge the grain in a constant stream, without breaking it or choking; and no irregularity of the ground, or fast or slow motion of the team, will vary the quantity sown to the acre. It cannot be choked by straws or which cuts in one wheat, as the rollers will carry them through. The quantity sown is regulated to any desired amount instantly, when standing or in motion.

THIRD. When the teeth are raised by the lever, the seed and manure are instantly stopped. The Drill can be drawn from field to field without leaking or wasting the grain. When the teeth are let down, the feed starts immediately when in motion. It sows WHEAT, RYE, OATS and BARLEY, with the same hopper, and requires no change; also, all kinds of GRASS SEEDS, if desired.

The Guano Attachment

is most complete, and can be regulated to sow the desired quantity by the moving of the slide. The guano is sown in the trench with the wheat and covered.

☞ The Machine is WARRANTED TO WORK WELL, and to be durable, with proper care.

AT A PRICE TO SUIT THE TIMES.
