COLONEL
MARCUS L. BROWN
SUPERINTENDENT

August 9, 2013

The Honorable Martin O'Malley
Governor of Maryland
State House
Annapolis MD 21401

Dear Governor O'Malley:

In accordance with Public Safety Article, Section 2, Subsection 307 and 308, of the Annotated Code of Maryland, the Maryland Department of State Police is pleased to submit the 2012 Uniform Crime Report, Crime in Maryland. This publication represents the 38th annual Crime in Maryland report.

The 2012 Crime in Maryland publication provides valuable information to law enforcement personnel, policy makers and interested parties to include those in academic, civic and research organizations. The statistics presented in this release are an indication of crime and criminal activities known to, and reported by, law enforcement agencies for 2012. The information presented focuses on the incidence of crime and provides an indicator over time of variations in crime trends.

Maryland law enforcement agencies contribute crime data to the Maryland Uniform Crime Reporting Program. Statistics pertaining to crime trends could not have been compiled without the dedication and cooperation of all police agencies, sheriff's offices and specialized law enforcement agencies throughout the state of Maryland. Contributions by Maryland law enforcement agencies to the Uniform Crime Reporting Program provide the Maryland Department of State Police the opportunity to develop and present a comprehensive picture of crime in Maryland.

Sincerely,

Marcus L. Brown
Superintendent

MLB:IJW:kw

"Maryland's Finest"

Executive Summary

An annual release since 1975, Crime in Maryland reports crime statistics provided by Maryland Law Enforcement agencies to the State's Uniform Crime Reporting (UCR) Program. Crime in Maryland details crime incidents, clearance rates, arrests, law enforcement officers killed and assaulted, and law enforcement employee data. Statewide, county, municipality, and reporting agency perspectives are presented within the report. The statewide UCR Program was developed to report crime in Maryland to the National UCR Program administered by the Department of Justice, Federal Bureau of Investigation. The Maryland program has evolved to collect and report data on domestic violence, hate bias and carjacking incidents and arrests. Reports and statistics pertaining to hate bias and their associated arrests are released in a separate publication to facilitate detailed reporting.

The Uniform Crime Reporting Program collects information on crimes that were selected as an index to represent crime in the United States. These index crimes are murder, rape, robbery, aggravated assault, breaking or entering, larceny-theft and motor vehicle theft. Although not an index crime, data pertaining to the crime of arson is also collected, analyzed and reported through this report.

Crime in Maryland decreased three percent in 2012, when compared to 2011. There were 189,816 total crime incidents reported in 2012 compared to 195,517 in 2011. Violent crime decreased two percent. The violent crime group consists of murder, rape, robbery and aggravated assault. Property crime decreased three percent during the same period. The composition of the property crime group is breaking or entering, larceny-theft and motor vehicle theft. The 2012 percent increase or decrease of the index crime breakdown is as follows:

| | | | |
|--------------------|--------|----------------------|--------|
| Murder | - 6.5% | Breaking or Entering | - 6.5% |
| Rape | + 3.3% | Larceny-Theft | - 1.0% |
| Robbery | - 1.6% | Motor Vehicle Theft | - 9.8% |
| Aggravated Assault | - 3.4% | Arson | - 5.1% |

Arrests in Maryland decreased one percent in 2012, when compared to 2011. There were 260,783 arrests reported in 2012 compared to 263,093 in 2011. Of the total arrests, 230,526 or 88 percent were adults. This is an increase of one percent over 2011. Juvenile arrests accounted for 30,257 or 12 percent of arrests in 2012. This is a 15 percent decrease over 2011. Arrests for drug offenses totaled 49,535 in 2012. This is a three percent increase over similar arrests reported in 2011. In 2012, 20,384 persons were arrested for driving while intoxicated. This is a decrease of three percent over similar arrests reported in 2011.

There were four Maryland law enforcement officers who died in the line of duty during 2012. There were 3,444 Maryland law enforcement officers assaulted in 2012. This represents a decrease of two percent over similar assaults reported in 2011 and equates to 22 percent of full time law enforcement officers employed in Maryland.

In 2012, there was a less than one percent increase in the number of full-time law enforcement officers in Maryland. There were 15,603 full-time law enforcement officers in 2012 compared to 15,558 in 2011. In 2012, there were 2.7 full-time law enforcement officers per 1,000 of population.

INTRODUCTION

BACKGROUND

The Maryland Uniform Crime Reporting (UCR) Program is one measure that has been taken in the establishment of an effective Criminal Justice Information System (CJIS) for the State. This particular phase focuses on the incidence of crime and law enforcement. It establishes a method to collect, evaluate and process uniform statistical data on crime statewide. The Maryland UCR Program provides the means to forward valid data to the Federal Bureau of Investigation from a single agency and also to consolidate it into an annual report entitled Crime in Maryland.

NATIONAL UNIFORM CRIME REPORTING PROGRAM

The counterpart of the Maryland UCR Program is the National UCR Program which is under the direction of the Federal Bureau of Investigation. The National Program resulted from a need for a uniform compilation of crime statistics nationwide. Uniform Crime Reports were first collected in 1930 after being developed by a committee of the International Association of Chiefs' of Police. The IACP continues to serve in an advisory capacity to the FBI in the current operation of the program.

Crime statistics voluntarily submitted by individual law enforcement agencies from all 50 states are presented annually in the FBI's publication entitled Crime in the United States.

MARYLAND UNIFORM CRIME REPORTING PROGRAM

The FBI has actively assisted individual states in the development of State UCR Programs compatible with the National Program. Maryland took advantage of this assistance in 1972 and was able to develop its own program by 1975.

The Maryland Uniform Crime Reporting Program became operational January 1, 1975. This program consists of the uniform classification, review, compilation and analysis of crime statistics reported by all law enforcement agencies of the State pursuant to the guidelines and regulations prescribed by law.

The responsibility and authority for the collection and dissemination of UCR data is assigned to the Department of State Police in accordance with Public Safety Article, Section 2, Subsection 307 and 308, of the Annotated Code of Maryland.

PURPOSE AND OBJECTIVES

In keeping with the recommendation of the President's Commission on Law Enforcement and the Administration of Justice, the Maryland UCR Program was planned for eventual growth into a complete and integrated offender based Criminal Justice Information System. Under this program, each offender arrested in Maryland is tracked through the entire criminal justice system from time of arrest, through the courts, to the correctional system where their exit (parole; expiration of sentence, etc.) will be recorded. In this manner, a complete "criminal history" on individual offenders will be available for use by the police, courts and correctional agencies in Maryland. In addition, statistical data derived from the CJIS Program will provide assistance in determining the overall efficiency of the Criminal Justice System in Maryland and will make effective management studies possible.

The fundamental objectives of the Maryland UCR Program are:

1. Inform the Governor, legislature, other governmental officials and the public as to the nature, magnitude and trends of the crime problem in Maryland.
2. Provide law enforcement administrators with criminal statistics for administrative and operational use.
3. Determine who commits crimes by age, sex, race and other attributes in order to find the proper focus for crime prevention and enforcement.
4. Provide base data and statistics to measure the workload and effectiveness of Maryland's Criminal Justice System.
5. Provide base data and statistics to measure the effects of prevention and deterrence programs.
6. Provide base data and statistics for research to improve the efficiency, effectiveness and performance of criminal justice agencies.
7. Provide base data to assist in the assessment of social and other causes of crime for the development of theories of criminal behavior.
8. Provide the FBI with complete UCR data to be included in the national crime reports.

REPORTING PROCEDURES

Under the Maryland UCR Program, law enforcement agencies submit specified Uniform Crime Reports. The necessary information for each of the required reports is gathered from each agency's record of complaints, investigations and arrests.

Crime data and information is submitted monthly by state, county and municipal law enforcement agencies on the number of offenses known to them in the following crime categories:

- (1) Criminal Homicide
- (2) Forcible Rape
- (3) Robbery
- (4) Assault
- (5) Breaking or Entering
- (6) Larceny-Theft
- (7) Motor Vehicle Theft
- (8) Arson*

The count of offenses is taken from the record of complaints received by law enforcement agencies. This information comes from victims, witnesses, other sources or discovered by law enforcement during their own operation. Complaints determined by subsequent investigation to be unfounded are eliminated from the count. The resulting number of "actual offenses known to law enforcement agencies" in these crime categories are reported without regard for whether anyone is arrested, stolen property is recovered, local prosecution policies or any other consideration.

Reported offenses are recorded by the municipality and county in which they occur. Municipal law enforcement agencies report those crimes which occur within the cities and state. County agencies report those crimes which occur in the counties outside the cities.

A supplemental report is also submitted each month showing the value of stolen and recovered property, the type of property and the type of offense within a crime category in which it was taken. This report also shows the number of stolen vehicles recovered locally and by other jurisdictions. In addition, each agency reports the number of persons arrested by them or other agencies for crimes which have occurred within their jurisdiction. The arrest report also shows the age, sex and race of those arrested and the disposition of juveniles by the arresting agency. When applicable, supplemental reports are submitted regarding the persons, weapons and circumstances, etc., involved in homicides, domestic violence incidents, officer assaults and "carjackings." In addition, police employee data is collected on an annual basis.

*Monthly arson reports are submitted for law enforcement agencies by the State Fire Marshal's Office and designated county agencies.

REVIEW PROCESS

A major concern in the collection of crime statistics for law enforcement agencies throughout the state is the uniformity and accuracy of data received. Program aides, such as guides and instructional classes, do not necessarily guarantee the accuracy of the reports submitted by the contributor's, therefore, additional controls are necessary.

Each report received by the UCR section is recorded, examined and reviewed for mathematical accuracy and possibly, more importantly, for reasonableness. The review process includes numerous checks to ensure the validity of information. The elimination of duplicate reporting by individual contributors receives particular attention. Minor errors are corrected by telephone contact with the contributors. Substantial variations and errors are adjusted through personal contacts. The personal contacts are invaluable to the accuracy and quality of reporting. Field Records Representatives are engaged in a constant educational effort, and as such, provide a vital link between the UCR Program and the contributor.

POPULATION DATA

The computation of crime rates, as they appear in this report by municipality, county and state are based on the latest available population estimates for the year. These population estimates are provided by the Federal Bureau of Investigation through the cooperation and assistance of the United States Bureau of Census.

LIMITATIONS OF A UNIFORM CRIME REPORTING PROGRAM

Information currently collected by the Maryland Program is generally the same as that gathered by the National System, and the methods of classifying and scoring offenses and arrests are the same. This readily enables comparisons with other states and with the nation, as a whole. However, there are limitations to the information collected which should be clearly understood before any conclusions are drawn from the UCR data presented in this report.

The main goal of the UCR Program is to furnish police administrators with a measure of their activities and operational problems as indicated by the number of reported offenses, arrests, clearances, etc.

A first step in the control of crime is to ascertain the true dimensions of the problem. However, present statistics, as gathered by the UCR Program, measure neither the real incidence of crime or the full amount of economic loss to victims. Information regarding number of offenses, clearances, value and type of property stolen and recovered property are collected only for the eight Part I offenses. For Part II offenses, the only information submitted is the number of arrests for these crimes. Consequently, there is no record of the actual number of these offenses occurring, or is there a calculation made for property loss.

The Crime Index does not explicitly take into account the varying degrees of seriousness of its seven components (excluding arson). Each crime receives the same weight as it is added to the index; consequently, an auto theft is counted the same as a murder and an aggravated assault is weighed equally with an attempted breaking or entering. Any review of crime must consider the volume, rate and trend of each offense that comprises the index and the relationship between these seven crimes*.

The Maryland and National Uniform Crime Reporting Programs are designed to measure offenses committed and persons arrested. Difficulties can arise if this distinction is not kept clearly in mind. Crimes relate to events, arrests relate to persons. Unlike traffic violations where there is usually one event, violation and offender, a single criminal act can involve several crimes, offenders and victims. Relating specific crimes to a criminal or offense to evaluate characteristics of those arrested is generally beyond the scope of the present Uniform Crime Reporting Program.

Juvenile crime and arrest statistics, because of their nature, are another area of misunderstanding. Many juvenile offenders are handled informally. As a consequence, inaccurate or incomplete recording of the event or action may result. Procedures for handling juveniles vary between departments more so than the handling of adult offenders. Furthermore, the degree of juvenile involvement in cleared offenses is probably seriously misunderstood because the juvenile clearance indicator is recorded only when juveniles are exclusively involved. When both adults and juveniles are subjects in a clearance, the juvenile participation is not reported.

The preceding comments should not be viewed as an indictment of the Uniform Crime Reporting Program which, admittedly, is designed for the operational requirements of law enforcement agencies. While the current method of gathering and reporting crime and arrest data provide a less than complete picture of criminality in our society, the FBI has designed the National Incident Based Reporting System to address these limitations.

*Arson is not used at this time in computing the Crime Index.

This page intentionally left blank

CRIME FACTORS

Statistics compiled under the Uniform Crime Reporting Program from data submitted by Maryland law enforcement agencies projects a statewide view of crime. Awareness of the presence of certain crime factors, which may influence the resulting volume and type of statistics presented, is necessary if fair and equitable conclusions are to be drawn. These crime influencing factors are present to some degree in every community. Their presence affects in varying degrees the crime experience of that community. Attempts at comparison of crime figures between communities should not be made without first considering the individual factors present in each community.

Crime, as an outgrowth of society, remains a social problem of grave concern. The police are limited in their role to its suppression and detection. As stated by the President's Commission on Law Enforcement and Administration of Criminal Justice in their report "The Challenge of Crime in a Free Society" (1967 - Page 92):

"But the fact that the police deal daily with crime does not mean that they have unlimited power to prevent it, or reduce it, or deter it. The police did not create and cannot resolve the social conditions that stimulate crime. They did not start and cannot stop the convulsive social changes that are taking place in America. They do not enact the laws that they are required to enforce, nor do they dispose of the criminals they arrest. The police are only one part of the criminal justice system; the criminal justice system is only one part of the government; and the government is only one part of society. In so far as crime is a social phenomenon, crime prevention is the responsibility of every part of society. The criminal process is limited to case by case operations, one criminal or one crime at a time."

Listed below are some of the conditions which affect the type and volume of crime that occurs from place to place:

Density and size of the community population and the metropolitan area of which it is a part.

Composition of the population with particular reference to age, sex and race.

Economic status of the population.

Relative stability of the population including number and ratio of seasonal visitors, residents, commuters and other transients.

Climate and seasonal weather conditions.

Educational, recreational and religious characteristics.

Standards governing appointments to the police force.

Policies of the prosecuting officials and the courts.

Attitude of the public toward law enforcement problems.

The administrative and investigative efficiency of the local law enforcement agency, including the degree of adherence to crime reporting standards.

Organization and cooperation of adjoining and overlapping police jurisdictions.

CRIME INDEX OFFENSES

The crime counts listed in this publication are actual offenses established by police investigation. When police receive a complaint of a crime and the follow-up investigation discloses no crime occurred, it is "unfounded." In 2012, police investigations that were "unfounded" represented one percent of the complaints concerning index offenses. When comparing individual index offenses to the number reported, "unfounded" offenses ranged from less than one percent in the larceny-theft category to 15 percent in the rape category, the same as in 2011.

A total of 189,816 actual Index Offenses were reported to law enforcement agencies in Maryland during the calendar year 2012. This represents a decrease of three percent when compared to the 2011 total of 195,517 Crime Index Offenses. In this publication, the calculations for averages may not add to the total due to rounding.

An analysis of Index Offenses by month in 2012 shows that August had the highest frequency of occurrence, and February had the lowest. In 2011, July had the highest frequency of occurrence and February the lowest.

The Crime Index Offenses represent the most common problem to law enforcement. They are serious crimes by their nature, volume, or frequency of occurrence. They are categorized as Violent Crimes, which includes Murder, Forcible Rape, Robbery and Aggravated Assault, or as Property Crimes, which includes Breaking or Entering, Larceny-Theft and Motor Vehicle Theft.

VIOLENT CRIME

Violent Crimes involve the element of personal confrontation between the perpetrator and the victim; consequently, they are considered more serious than Property Crimes because of their very nature. These offenses accounted for 15 percent of the total Crime Index for 2012 the same as in 2011. Violent Crime decreased two percent when compared to 2011.

PROPERTY CRIME

The number of Property Crimes reported during 2012 was more than five times greater than the number of Violent Crimes reported. As a group, Property Crimes made up 85 percent of the total Crime Index in 2012 the same as in 2011. Property Crime decreased three percent when compared to 2011.

RATES

Crime Rates relate the incidence of crime to the resident population. Many other factors, which may contribute to the volume and type of crime in a given jurisdiction, are not incorporated here, but are shown in the section entitled, "Crime Factors."

In 2012, the Crime Rate for Maryland was 3,225.7 victims for every 100,000 population. This represents a four percent decrease in the crime rate when compared to the 2011 rate of 3,354.6.

The 2012 Crime Rate for the Violent Crime group was 477.2 victims per 100,000 inhabitants, a three percent decrease compared with the 2011 rate of 494.1. The Property Crime group had a rate of 2,748.5 victims, a four percent decrease when compared to the 2011 rate of 2,860.5.

CLEARANCES

For Uniform Crime Reporting purposes, a crime is cleared when police have identified the offender, have evidence to charge the person and actually take them into custody. Solutions of crimes are also recorded in exceptional instances where some element beyond police control precludes formal charges against the offender, such as the victim's refusal to prosecute or local prosecution is declined because the subject is being prosecuted elsewhere for a crime committed in another jurisdiction. The arrest of one person can clear several crimes or several persons may be arrested in the process of solving one crime.

Maryland Law Enforcement Agencies cleared 26 percent of all Index Offenses reported to them in 2012, the same as in 2011.

Violent Crimes recorded a 55 percent clearance rate in 2012, compared to a 57 percent clearance rate in 2011. The Property Crime group experienced a 21 percent clearance rate in 2012, compared to a 20 percent clearance rate in 2011.

Considered individually, the 2012 Violent Crime clearance rate was determined to be 61 percent of the Murders, 45 percent of the Rapes, 37 percent of the Robberies and 67 percent of the Aggravated Assaults. The Property Crime clearance rates were 18 percent for Breaking or Entering, 24 percent for Larceny-Theft and 11 percent for Motor Vehicle Theft.

The relatively high clearance rate for Violent Crimes as compared to Non-Violent Property Crimes is in part attributable to the volume difference between the two. Property Crime volume is much greater than that of Violent Crime, and police investigation of Violent Crime is usually more intense.

JUVENILE CLEARANCES

A Juvenile Clearance is the clearance of an offense in which all of the offenders involved were under the age of 18. If one of the offenders was over 17 years of age, the clearance of that offense is not considered a Juvenile Clearance. In 2012, such Juvenile Clearances represented 13 percent of all clearances, compared to 15 percent in 2011.

Juvenile Clearances in the Violent Crime category represented 11 percent of the total cleared in 2012, the same as in 2011. The clearance rates in Violent Crimes are: Homicide four percent, Rape eight percent, Robbery 14 percent and Aggravated Assault ten percent.

In the Property Crime category, clearances involving Juvenile offenders represented 14 percent of the total cases cleared in 2012, compared to 17 percent in 2011. The clearance rates in Property Crimes are: Burglary 11 percent, Larceny-Theft 14 percent and Motor Vehicle Theft 19 percent.

STOLEN PROPERTY VALUES

The total value of Property Stolen during 2012 was \$260,395,853 which represents a less than one percent decrease from 2011. Recovered Property amounted to \$67,159,559 which is 26 percent of the total stolen, resulting in a \$193,236,294 property loss to victims in the State of Maryland during 2012. This property loss represents an increase of less than one percent when compared to the property loss in 2011.

This page intentionally left blank

MURDER

MURDER

Murder and non-negligent manslaughter is the willful (non-negligent) killing of one human being by another.

VOLUME AND RATE

During 2012, a total of 372 murders were reported. This represents a seven percent decrease over 2011. Murder accounted for one percent of all violent crime and less than one percent of the crime index. In 2012, there were 6.3 murders per 100,000 of population.

ANALYSIS OF MURDER

In 2012, 228 murders were cleared with four percent of these clearances involving only juvenile offenders. A total of 257 persons were arrested for murder during 2012. A breakdown of persons arrested for murder was 93 percent male, seven percent female, five percent juvenile, 85 percent Black and 15 percent White.

During 2012, 169 of the murder victims were in the 18 to 29 age group, representing 45 percent of the total. There were 21 juvenile victims of murder, accounting for six percent of the total murder victims.

Handguns were used in 73 percent of the reported murders in 2012. This represents a two percent increase in their use when compared to the handgun use in 2011. The next most used weapon was a knife, accounting for 13 percent of the reported murders in 2012. In 2011, knife accounted for 19 percent of the reported murders.

Drug related murders accounted for three percent of the total in 2012, the same as in 2011.

Family members, as offenders, accounted for 12 percent of the total murders, an increase of one percent from 2011. Of the family members as offenders, husband and wife or boyfriend and girlfriend (those who had cohabitated) reflect five percent of the total murders reported.

Additionally, an acquaintance is listed in 18 percent of the murders reported in 2012. Strangers and unknown relationships accounted for two other large categories, 17 percent and 75 percent respectively.

In 38 percent of the murders, the offenders are unknown and not described. When the race of the victim and offender is known, the offender is most often someone of the same race.

LARCENY-
THEFT

LARCENY-THEFT

Larceny-theft is the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another.

VOLUME AND RATE

During 2012, a total of 113,772 larceny-thefts were reported. This represents a decrease of one percent over 2011. Larceny-theft accounted for 70 percent of the property crime total and 60 percent of the crime index. In 2012, there were 1,933.4 larceny-thefts per 100,000 of population.

ANALYSIS OF LARCENY-THEFT

The highest percentage of the larceny-thefts reported was for theft from automobiles with 27 percent. From coin operated machines accounted for the lowest percentage, less than one percent.

In 2012, 27,187 larceny-theft offenses were cleared, with 14 percent of these clearances involving only juvenile offenders.

A total of 25,339 persons were arrested for larceny-thefts during 2012. The breakdown of persons arrested for larceny-theft was 61 percent male, 39 percent female, 22 percent juvenile, 50 percent Black, 49 percent White and one percent consisting of American Indian and Asian.

MOTOR VEHICLE THEFT

MOTOR VEHICLE THEFT

Motor vehicle theft is defined as the theft or attempted theft of a motor vehicle.

VOLUME AND RATE

During 2012, there were 14,493 motor vehicle thefts reported. This represents a ten percent decrease over 2011. Motor vehicle thefts accounted for nine percent of the property crime and eight percent of the crime index. In 2012, there were 246.3 motor vehicle thefts per 100,000 of population.

ANALYSIS OF MOTOR VEHICLE THEFT

During 2012, 71 percent of the motor vehicle thefts were automobiles, 14 percent were trucks and buses and 16 percent were other motor vehicles. There were 9,923 recovered vehicles accounting for 68 percent of the total reported stolen.

In 2012, 1,555 motor vehicle thefts were cleared, with 19 percent of these clearances involving only juvenile offenders.

A total of 1,870 persons were arrested for motor vehicle theft during 2012. A breakdown of persons arrested for motor vehicle theft was 86 percent male, 14 percent female, 27 percent juvenile, 70 percent Black, 30 percent White and less than one percent consisting of American Indian and Asian.

Law enforcement agencies reported a total value of \$88,289,552 stolen in motor vehicle thefts. The value of recovered motor vehicles was \$54,684,663, resulting in a loss of \$33,604,889.

ARSON

ARSON

Arson is any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

VOLUME AND RATE

During 2012 there were 1,405 arsons reported. This represents a five percent decrease over 2011. In 2012, there were 23.9 arsons per 100,000 of population.

Structures accounted for 45 percent, mobile accounted for 29 percent of the total number of arsons, while other property accounted for 26 percent. Residential comprised 60 percent of the structures at which arson was directed, with 18 percent of all targeted structural property being uninhabited. The estimated value of property damage was approximately 17 million dollars.

In 2012, 314 arsons were cleared, with 42 percent of these clearances involving only juvenile offenders.

A total of 375 persons were arrested for arson during 2012. A breakdown of persons arrested for arson was 80 percent male, 20 percent female, 39 percent juvenile, 49 percent Black, 51 percent White and less than one percent consisting of American Indian and Asian.

DOMESTIC VIOLENCE

DOMESTIC VIOLENCE

The Domestic Violence Act of 1994 mandated that all law enforcement agencies in Maryland submit copies of their police reports of incidences involving domestic violence to the Maryland State Police. Through the Maryland Uniform Crime Reporting Program, a revised Battered Spouse data collection form was created. This new form allowed for the collection of more data, which is based upon a revised definition of a domestic violence incident under the guidelines of the Maryland Uniform Crime Reporting Program.

Under the Maryland Uniform Crime Reporting Program the definition for a domestic violence incident is considered any crime where "*An individual who has received deliberate physical injury or is in fear of imminent deliberate physical injury from a current or former spouse or a current or former cohabitant. This includes a homosexual relationship.*" In addition, a domestic violence incident in the Maryland Uniform Crime Reporting Program is considered to be any crime against:

- *A married person living with their spouse.*
- *A married person estranged from their spouse.*
- *A male and female in an intimate relationship who are not married to each other and who are cohabiting or had cohabited.*
- *Individuals of the same sex in an intimate relationship who are cohabiting or had cohabited.*

It should be noted that prior to 1996, the statistical information collected was only on assaults to a domestic partner and did not include individuals of the same sex in an intimate relationship who are cohabiting or had cohabited. The following information gives a more comprehensive report.

DOMESTIC VIOLENCE CRIMES

There are limitations to the information collected which should be clearly understood before any conclusions are drawn from the data presented in this report. Procedures for handling domestic violence crimes vary between law enforcement agencies and counties of occurrence.

The current method of collecting domestic violence information for this report provides less than a complete picture. There is at present no other statewide informational system in general use gathering these statistics from law enforcement agencies that will more accurately perform this task.

There were a total of 17,615 domestic violence crimes reported in 2012, as compared to 18,209 crimes in 2011, resulting in a 3 percent decrease. The breakdown is as follows:

| Crime | 2008 | 2009 | 2010 | 2011 | 2012 |

Analysis

In 2012, 49 percent of all domestic violence crimes reported occurred between the hours of 6:00 P.M. and 1:00 A.M., inclusive. Thirty-six percent of domestic violent crimes reported occurred on Saturday and Sunday. When combining these two categories, this would indicate that an intensive period for domestic violence crimes occurs between 6:00 P.M. and 1:00 A.M. on Saturday and Sunday.

| Other | 4,785 | 4,379 | 4,345 | 5,165 | 5,214 |
| Unknown | 6,973 | 6,489 | 6,508 | 5,775 | 5,348 |
| TOTAL | 18,926 | 18,556 | 17,931 | 18,209 | 17,615 |

CLEARANCES

There are two ways of clearing a case. One is by making an arrest and charging the person (s) with the offense. The second is known as an exceptional clearance. Exceptional clearance means the police know the identity and location of the person (s) who committed the offense and have enough information to arrest them. However, there is some reason beyond their control that prevents them from making the arrest.

The arrest and exceptional clearances reported reflect the disposition at the time the domestic violence report form was forwarded to the Uniform Crime Reporting Program. These reports are not updated; therefore, other arrests and exceptional clearances may occur, but would not be reflected in the following totals.

| | 2008 | 2009 | 2010 | 2011 | 2012 |
|--------------|---------------|---------------|---------------|---------------|---------------|
| Arrest | 8,912 | 8,772 | 8,615 | 8,590 | 8,058 |
| Exceptional | 5,849 | 5,596 | 5,374 | 5,644 | 4,677 |
| Unknown | 4,165 | 4,188 | 3,942 | 3,975 | 4,880 |
| TOTAL | 18,926 | 18,556 | 17,931 | 18,209 | 17,615 |

During 2012, 72 percent of all domestic violence cases were cleared. A breakdown of the clearances in 2012, were 46 percent by arrest, 27 percent by exceptional and 28 percent unknown, compared to 47 percent by arrest, 31 percent by exceptional and 22 percent unknown in 2011.

CARJACKING

CARJACKING

Since 1992, the UCR Program has collected data on a type of robbery popularly called "carjacking". A definition was developed to identify the term "carjacking". The definition is:

"Carjacking" is a robbery or attempted robbery where the primary objective is to obtain the victim's motor vehicle and the victim is in the vehicle or in very close proximity to the vehicle".

In 2012, there were 473 carjackings representing a 1 percent decrease over the 480 carjackings reported in 2011. Additionally, 70 Motor vehicle robberies were reported that did not meet the carjacking definition, including 6 unfounded carjackings.

VICTIMS

There were 529 victims of carjackings reported in 2012. By gender, the 529 victims of carjackings were made up of 67 percent male and 32 percent female. This report only captures details on four victims per carjacking. Blacks accounted for 70 percent of the carjacking victims, 26 percent white and all other races combined equaled 4 percent.

The following reflects the sex, race, age and injuries of the reported victims:

Sex

| | 2008 | 2009 | 2010 | 2011 | 2012 |
|--------------|------------|------------|------------|------------|------------|
| Female | 259 | 194 | 173 | 126 | 171 |
| Male | 696 | 508 | 440 | 352 | 357 |
| Unknown | 1 | 4 | 2 | 2 | 1 |
| TOTAL | 956 | 706 | 615 | 480 | 529 |

Race

| | 2008 | 2009 | 2010 | 2011 | 2012 |
|-----------------|------------|------------|------------|------------|------------|
| American Indian | 1 | 2 | 0 | 0 | 1 |

| Unknown | 35 | 21 | 11 | 18 | 16 |
| TOTAL | 956 | 706 | 615 | 480 | 529 |

Age

The ages of the victims ranged from 3 to 87, with 8 percent being from 18 to 40 years of age.

Injuries

| | 2008 | 2009 | 2010 | 2011 | 2012 |
|--------------|-------------|-------------|-------------|-------------|-------------|
| Homicide | 0 | 1 | 1 | 0 | 1 |
| Serious | 20 | 21 | 21 | 20 | 10 |
| Slight | 128 | 120 | 109 | 95 | 93 |
| None | 415 | 280 | 454 | 318 | 396 |
| Unknown | 393 | 284 | 30 | 47 | 29 |
| TOTAL | 956 | 706 | 615 | 480 | 529 |

OFFENDERS

This report only captures details on four offenders per carjacking. In 2012, there were 805 detailed offenders involved in carjackings. In 6 of the carjackings there were more than four offenders, thus leaving 8 offenders without details to report. By gender, the detailed perpetrators of carjackings were 95 percent male, 3 percent female and 2 percent unknown. The carjacking offenders were 93 percent black, 5 percent white, and 2 percent for all other races combined with the unknown. The following reflects the sex, race and age of the reported offenders:

Sex

| | 2008 | 2009 | 2010 | 2011 | 2012 |
|--------------|--------------|--------------|-------------|-------------|-------------|
| Female | 38 | 37 | 43 | 23 | 25 |

| 11:00 P.M. | 85 | 82 | 59 | 35 | 51 |
| TOTAL | 835 | 630 | 537 | 435 | 473 |

Analysis

In 2012, 54 percent of all carjacking crimes occurred between the hours of 6:00 P.M. to 1:00 A.M., inclusive. Twenty-nine percent of carjacking crimes occurred during Saturday and Sunday. When combining these two categories, this would indicate that an intensive period for carjacking crimes occurs between 6:00 P.M. and 1:00 A.M. on Saturday and Sunday.

CLEARANCES

An offense is cleared or solved for crime reporting purposes by either arrest or exceptional means. As with the domestic violence offenses, the carjacking clearances are not updated. The totals in the "None" category appear higher due to collection limitations as ongoing investigations are continuing and may clear a carjacking offense at a later time.

| | 2008 | 2009 | 2010 | 2011 | 2012 |

INDEX OFFENSE DATA

The tables contained within this section were designed to provide quick reference to statistical crime information relative to the different reporting areas of the State of Maryland.

The tables are broken down by Region. Within each Region information is listed in County name sequence and is further detailed to show the activity experienced by individual police agencies. The general identifying descriptions which indicate the reporting areas are listed and defined as follows:

- Regional Total - This line indicates the total activity of all the Counties within the indicated Region.
- County Total - This line indicates the total activity of all reporting Agencies within the indicated County.
- Sheriff - This line indicates the total activity reported by Sheriff's Offices. This includes activity which may have occurred within the corporate limits of towns in that County.
- County Police Departments - This line indicates the total activity reported by County Police Departments. This includes activity which may have occurred in the corporate limits of towns in that County.
- State Police - This line indicates the total activity reported by all State Police installations within the indicated reported area. This includes activity which may have occurred within the corporate limits of towns in that County.
- Municipal Police Departments - This line indicates the total activity reported by the specified police departments and includes only those crimes which were handled by that department.

There are five regions used in the Maryland Uniform Crime Reporting Program which are listed below.

Region I – Eastern Shore

Caroline County
Cecil County
Dorchester County
Kent County
Queen Anne's County
Somerset County
Talbot County
Wicomico County
Worcester County

Region II – Southern Maryland

Calvert County
Charles County
St. Mary's County

Region III – Western Maryland

Allegany County
Carroll County
Frederick County
Garrett County
Washington County

Region IV – Washington Metropolitan

Montgomery County
Prince George's County

Region V – Baltimore Metropolitan

Anne Arundel County
Baltimore City
Baltimore County
Harford County
Howard County

Crime Rates for the individual agencies are not calculated in the following table because of overlapping jurisdictions in many cities of municipal, county and state law enforcement agencies. This table contains the offenses as reported by the individual agencies with crime rates for the county and region totals.

MUNICIPALITY

MUNICIPALITY CRIME RATES

Crime rates for individual cities and towns are listed in the following table. The rates for many cities are based on combined data reported by municipal, county and state law enforcement agencies due to overlapping jurisdiction. For the purpose of this report, data for cities lying in several counties has been shown in only one county.

| | | CRIME RATE | TOTAL OFFENSES | MURDER | RAPE | ROBBERY | AGGRAVATED ASSAULT | BREAKING OR ENTERING | LARCENY THEFT | M/V THEFT |

ARREST DATA

ARREST DATA

The Maryland Uniform Crime Reporting Program requires the submission of monthly reports of persons arrested in the State. A record of arrest activity for both Part I and Part II crimes are received from state, county and municipal law enforcement agencies showing the age, sex and race of persons arrested. Traffic arrests, except Driving While Intoxicated, are not reported. A total of 260,783 arrests for Part I and Part II criminal offenses were reported during 2012. In 2011, there were 263,093 arrests which represent's a one percent decrease. Based on 2012 population estimates, there were 4431.6 arrests per 100,000 of population in Maryland. The arrest rate for 2011 was 4,514.1, representing a two percent arrest rate decrease.

A person is counted on the monthly arrest report each time they are arrested. This means that a person may be arrested several times during a given month and would be counted each time. However, a person is counted only once each time regardless of the number of crimes or charges involved. A juvenile is counted as "arrested" when the circumstances are such that, if the juvenile was an adult, an arrest would have been counted or when police or other official action is taken beyond a mere interview, warning or admonishment.

Arrest figures do not indicate the number of individuals arrested or summoned since, as stated above, one person may be arrested several times during the month. However, arrest information is useful in measuring the extent of law enforcement activities in a given geographic area, as well as providing an index for measuring the involvement in criminal acts by the age, sex and race of perpetrators.

During 2012, 18 percent of all reported arrests were for Crime Index Offenses compared to 17 percent in 2011. Analysis of Crime Index Arrest Data indicates that larceny-theft comprised the highest percentage of all arrests for Crime Index Offenses, with 55 percent of the total in 2012, the same as in 2011. The drug abuse, other assaults, driving under the influence and disorderly conduct categories recorded the highest percentage of arrests for Part II offenses. These offenses accounted for 50 percent of the total arrests for Part II offenses in 2012.

5 YEAR TREND

| | 5 YEAR AVERAGE | 2012 | 2011 | 2010 | 2009 | 2008 |
|--------------|-------------------|----------------|----------------|----------------|----------------|----------------|
| Juvenile | 39,102 | 30,257 | 35,510 | 39,964 | 41,747 | 48,030 |
| Adult | 237,645 | 230,526 | 227,583 | 230,834 | 244,041 | 255,240 |
| TOTAL | 276,747 | 260,783 | 263,093 | 270,798 | 285,788 | 303,270 |

VIOLENT CRIME ARRESTS

Violent Crime arrests represented 25 percent of all arrests for Crime Index Offenses and four percent of the total arrests, the same as in 2011.

A further evaluation indicates that arrests for robbery and aggravated assault represented the highest percentage of the total arrests for violent crimes with 32 and 63 percent, respectively.

PROPERTY CRIME ARRESTS

Property Crime arrests represented 75 percent of all arrests for Crime Index Offenses and 13 percent of the total arrests, the same as in 2011.

The highest percentage of property crime arrests, 73 percent, continues to occur in the larceny-theft category.

GAMBLING ARRESTS

A total of 236 gambling arrests were reported during 2012. In 2011, 240 persons were arrested for gambling violations, resulting in a two percent decrease.

Arrests for gambling offenses amounted to less than one percent of all reported Part I and Part II arrests in 2012. Persons under the age of 18 made up eight percent of all gambling arrests in 2012, the same as in 2011.

DRUG ABUSE VIOLATION ARRESTS

Information pertaining to drug abuse violation arrests is collected according to specific drug categories and whether the arrest was for sale or manufacture or possession of a specific drug. During 2012, a total of 49,535 arrests for drug abuse law violations were reported, compared to 48,246 drug abuse law violation arrests in 2011, resulting in a three percent increase.

Evaluation of the reported data discloses that 27 percent of all persons arrested for drug abuse violations were under 21 years of age, and 9 percent were under 18 years of age in 2012, compared to 30 and 10 percent respectively in 2011.

Analysis of individual categories showed that the highest percentage of arrests, which involved marijuana, was 54 percent in 2012 and 56 percent in 2011. Drug abuse arrests for opium or cocaine and derivatives increased to 39 percent in 2012 from 37 percent in 2011. Of the total drug abuse arrests, 78 percent were for possession, while 22 percent were for sale or manufacture. In 2011, 81 percent were for possession while 19 percent were for sale or manufacture.

Possession of marijuana decreased to 49 percent of the total drug abuse arrests in 2012, from 51 percent in 2011. Possession of opium or cocaine and derivatives represented 24 percent of the total drug abuse arrests in 2012, a decrease from 25 percent in 2011. Arrests for sale or manufacture of marijuana amounted to five percent of the total drug abuse arrests in 2012, the same as in 2011. Sale or manufacture of opium or cocaine and derivatives amounted to 15 percent of the total drug abuse arrests in 2012, an increase from 12 percent in 2011.

To aid in the study of drug arrests a chart by county is provided.

LAW ENFORCEMENT OFFICERS KILLED

During 2012 four law enforcement officers died in the line-of-duty in Maryland. The following summaries are based on information provided by their agencies and the Federal Bureau of Investigation. The Federal Bureau of Investigation conducts in-depth investigations of these tragic incidents in which law enforcement officers have made the supreme sacrifice in the performance of their duties.

August 20, 2012

A two year veteran of the Prince George's County Police Department died as a result of injuries received in motor vehicle accident. Two officers were in pursuit of a vehicle that was involved in a theft related incident. The 23 year old officer was killed when he lost control of his cruiser and it ran off the highway into a ditch.

August 29, 2012

A 44 year old Baltimore Police Department officer died after complications from surgery stemming from a February on-duty car accident. The 17 year veteran was responding to a call to assist another officer when he was hit by another vehicle at an intersection.

September 6, 2012

A 14 year veteran of the Harford County Sheriff's Office died as a result of injuries received in a motor vehicle accident. The 34 year old corporal was killed when his patrol vehicle traveled off the road and struck a steel pole and two trees.

October 18, 2012

A 28 year old officer of the Prince George's County Police Department died as a result of injuries received in a motor vehicle accident. The six year veteran was driving in his cruiser when it collided with another vehicle causing him to hit a pole.

LAW ENFORCEMENT OFFICERS ASSAULTED

The following information is based on a detailed monthly collection of data in the Uniform Crime Reporting System regarding the problem of assaults on local, county and state law enforcement officers.

A total of 3,444 law enforcement officers in Maryland were victims of assault in the line-of-duty during 2012, compared to 3,503 assaults during 2011, resulting in a two percent decrease.

The rate of assaults on law enforcement officers for the State was 22 assaults per every 100 sworn officers in 2012, compared to 23 assaults per every 100 sworn officers in 2011.

Physical force was used in 89 percent of all assaults on police officers.

The greatest number of assaults occurred while officers were responding to disturbance calls (family disputes, man with a gun, etc.) and between the hours of 10:00 P.M. and 2:00 A.M.

A total of 3,342 assaults on law enforcement officers were cleared during 2012, amounting to a 97 percent clearance rate.

LAW ENFORCEMENT EMPLOYEE DATA

POLICE EMPLOYEE DATA

The Uniform Crime Reporting Program in Maryland incorporates the collection of pertinent data relating to the police of the State. Information regarding police employee strength is discussed in this section.

This information is submitted by county, municipal and state law enforcement agencies and compiled on an annual basis. Specific information concerning the number of law enforcement employees reflects the status as of October 31, 2012.

LAW ENFORCEMENT EMPLOYEE RATES

In 2012, the average number of full-time law enforcement employees (state, county and municipal) including civilian employees, amounted to 3.4 for each 1,000 inhabitants of the State. In 2011 the average number of full-time law enforcement employees including civilian employees, amounted to 3.5 for each 1,000 inhabitants of the state. The rate based on sworn personnel only amounted to 2.7 per 1,000 in population, the same as in 2011.

The ratio of law enforcement employees per 1,000 population in any given area or municipality is influenced by a number of factors, much the same as the crime rate. The determination of law enforcement strength for a given county or municipality is based on factors such as population density, size and character of the community, geographic location, proximity to metropolitan areas and other conditions which exist in the area generating the need for law enforcement services. Employee rates also differ among agencies since in particular there is a wide variation of the responsibilities and level of activity within various law enforcement agencies. The information in this section relates to reported police employee strength and should not be interpreted as recommended strength for any area.

CIVILIAN EMPLOYEES

The personnel of each law enforcement agency differ as to the demands and responsibilities placed before them. Many police officers are fully occupied with clerical tasks and are not free to perform active police duties. Some police administrators use civilians in this capacity, thus freeing the sworn personnel for actual police-related services.

As of October 31, 2012, 4,661 or 23 percent of the total number of police employees in Maryland were civilian.
