

1 us said they could move it if they wanted to.

2 MR. SYKES: Who could move it?

3 MR. CASE: The General Assembly. For example,
4 the Speaker of the House said there just wasn't any reason
5 for these fellows dillydallying around the way they did,
6 and if a provision such as this were in the law, they
7 would get down and go to work on it.

8 MR. SYKES: How does that tie in with your
9 statement just a moment ago that a few key people can
10 pretty well control whether the bill is considered or not
11 considered?

12 MR. CASE: Because what happens is that they
13 hold continuous interminable hearings. It is considered
14 all right, but it is not acted on. What we want is both
15 consideration and action.

16 THE CHAIRMAN: Mr. Clagett:

17 MR. CLAGETT: May I point out, to solace
18 Mr. Scanlan's feelings, because he spoke feelingly, that
19 the last sentence avoids a veto by the Governor, so
20 actually it is the act, if they act timely, of the Legis-
21 lature.
