SOUTH CONCERNED ABOUT ATTITUDE OF SOLDIERS

Birmingham, Ala., March 6.—Every section of the south is becoming deeply concerned about the attitude of the returned Negro soldiers.

The Birmingham News, in a column editorial, under the caption: "Returned Negro Soldiers," proceeds to declare: "It is to be feared that a new cause of friction is liable to arise in the south between the two races."

There is an opinion prevalent among many white people to a greater or less degree that these colored soldiers have come back with their heads turned, that they believe themselves to be worthy of the greatest consideration in all respects, and that they are inclined to insist upon such a consideration and upon recognition in ways they did not urge before their service in the army.

It is argued by Negro leaders in this section that if the white people have that impression, that at last they have the correct idea on something connected with the Negro, the white people of the south proceed to point out that this is an erroneous impression, and that it is probably true that these black boys who went to France are not willing to plod along in the old ways.

However, it is all too true that Negroes of the Southland are not prepared to accept the former positions in life, those of cowardice, cringing and servitude. There is a growing determination to have a clean cut show down of facts and figures, in an effort to get "equal and exact justice."

There is a newer and bolder element of whites who are joining with the intelligent Negroes of the South in the plan to make right the law of the land.

AMERICA SHOULD BE A COUNTRY FOR ALL

New York, March 6.—A mighty howl came from Frank Morrison, of the American Federation of Labor, when he declared, at a dinner of the Council on Foreign Relations at Hotel Astor that: "There should be brought to this country a million Chinese to do housework and farm labor."

Morrison declared that "Trade unions in this country will fight the proposition to the last ditch; serious enough problems have resulted from the importation of Negroes."

Notwithstanding this gratuitous assertion, Mr. Maxim held his ground, and declared this should be considered not merely a white man's country, but under the new democracy, a country for all.

MADDER NOT POPULAR

Associated Negro Press—Chicago, March 6.—The caucus decision to make Congressman Tillet, of Massachusetts, the next Speaker of the House, instead of Congressman Mann of Illinois, is being discussed generally by the Negro citizens of Chicago.

While Congressman Mann has some admirers among members of the race, it is pointed out that he has never been responsible for a Negro appointment during his entire career, and in subjects affecting the welfare of the Negro, he has only been lukewarm in his support.

That Congressman Madden, who is actually kept in Congress by the Negro vote, is getting more of his share of praise, is attested by several prominent Negroes in Chicago.
