The prefumption of fuch an address thom a body affembled by no legal authority, and whom i must confider bled by no legal and open rebellion against their sovereign, can only be equalied by the outrages which obliged me can only be equalited by the bullages which configed the to take refuge on board the king's fhip in this harbour. It deferves no answer, nor should I have given it any, but to mark the hardiness with which you have advan-ced, that I could so far forget my duty to my sovereign and to my country as to promise that I would take no active part in bringing the subverters of our glorious conflitution, and the real liberties of the people, to a tenie of their duty. The unmanly arts that have aiready been used to prejudice me in the general opinion may still be employed by that committee.

But I never will return to Charlestown till I can support the king's authority, and protect his faithful and loyal subjects. Whenever the people of this province will put it in my power to render them effential fervice, 1 will with pleasure embrace the opportunity, and think it a very happy one."

TO THE PRINTER. IT is with much concern that I fee so many infamous and abominable letters and paragraphs on both fides of the question, relative to the present diffentions between parliament and America; and only letters but pamphlets, tending to widen the unit pathreach, at a time when every virtuous man should try to close it. The views of each party have been misunderstood and misrepresented, by several on each side, wilfully and maliciously, as if there was no God at all, no searcher of the heart that had any power to punish. A mischievous lie is one of the greatest of crimes; and in this question they have had but too much effect. Is it not a greater crime to cause the blood of thousands to be shed, and the misery of the whole empire, than to commit fifty robberies on the highway? On one fide Parliament has been affured, that the Americans wanted to shake off all allegiance to, and dependence on, the mother country; this was at least a horrible fallity. On the other side, America has been told that England On the other side, America has been told that England wanted to enslave her: This was too as horrible a fallifity. The people of this country have had another lie held out to them, that America would not at all contriheld out to them, that America would not at all contriwhole question was about the mode. The people of America have been told, that the design of England was to tax her at pleasure, and at random; whereas several of the leading make veral of the leading men here, wanted only to make them acknowledge the right, once for all, and then to disuse that right; for common sense shewed that we got more by their good humour, and by peace with them, than could ever be got from them by swarms of
