COME few COUNTERFEIT POST NOTES of The Bank of Maryland, having been lately difcovered in circulation, and on tracing the same were found to come from the back parts of Virginia, where they have probably first issued; to avoid imposition, it is thought necessary to give the following description of them, by which they may be readily detected:-

They have the letter D for their alphabetical mark, at the left hand side of the note.

The paper on which they are printed is more soft and tender, the strokes of the letters in the engraving are in general stronger, and have a darker appearance

than in the true bills. The fignature, Wm. Patterson, is badly done; the strokes of all the letters are stiff and lahoured, and appear to be painted over with the pen, as well as the flourish under the name.

The value is left blank in the engraving, to be filled up in writing, so that the sum may be more or less, at

pleasure. No true Post Notes of the alphabetical mark above described, have been lately issued, and very few are

now in circulation. The above reward of ONE THOUSAND DOL-LARS will be paid to the person or persons who shall discover and prosecute to conviction the several offenders, or any of them, of the following description,

The person or persons who manusactured the paper on which the bills are printed.

The person or persons who engraved the plate. The printer or printers of the bills.

Every person who has acted as principal in any way, in the counterfeiting and uttering the faid
