PR. HULL'S TRUES

FOR the swiel and case of Herois or Rep(ure. This Surgical instrument is now in
well-known to the Medical preference, and as
xtensivly used by unfortunate sufferers laboring, ander the disease of Herois, that a particular account of its mechanical constructs of
its surgical effects in thought unnecessary.

The subjoined remarks from Physicians and
Surgeous of high respectability in our country,
are the results of unch prestical experiesce in
the use and application of this true.

James Thatcher, Ma D. author of the Modern Practice, in his second edition, under the James Thatcher, Ma D. author of the Medern Practice, in his second edition, under the subject of Hernis, remarks at Dr. Hull is exclusively entitled in the credit of first adapting the true Surgical principle for the radical true of Hernia. He happily conceived the idea that the pad of the Truss should be so constructed as simply to support the muscular florra around the ring or aperture as much as possibly in the state in which they are maintained in perfect health. Unless this be attained the parts can never recover their natural tone, whatever may

never recover their natural tone, whatever may be the degree of pressure applied."

Samuel Ackerly, M. D. in his excellent addition of 'Hooper's Medical Dictionary,' under the head of 'Truss,' after enumerating the rule resulting from the use of the defective truss,' furmenty worn, save, 'This evil was not feel. formerly worn, says. This evil was not fal-ly remedied until Dr. Amos G. Hall, of N w fork, turned his attention to the subject. ad York, turned his attention to the sugert, and by his improvement in the construction of trusses, has rendered it certain that all recent repses, has rendered repses, rendered rendered repses, rendered rendered repses, rendered rendered rendered rende tures and those of children, may be primanently cured, and those of old people and of long standing, may, in many cases, also be remedied. The pad of Dr. Hull's Truss is concars and not convex; and hence the raised circular margin, by proper adaptation, presses upon the sides of the hernial opening, and tends to close the aperture and cure the hernia.

M. L. Knapp. M. D. late Physician and Surgeon to the Bultimore General Dispensey, in a communication to Doctor Hull, says: I have applied your trusses in acceral hundred cases during the last three years. A great many upon whom I have applied your trases, have been radically cured; and some of these were cases of long standing, where all other trusses had failed. I send you a note of thasks from Mr. P. a citizen of great respectability, who was cured of a bad scrotal rupture, of thirty five years standing, by wearing one of your trusses for two years. ther trusses twenty nine years. His son, also, aged 16 years, ruptured from his infancy, was

Baltimore, January, 1880. Valentine Mott. M. D. Professor of Surgery, says. The great and signal benefits which are produced by this Truss, result from its strict subservience to, and accordance with

Scientific and Surgical principles. The operation and effect of this Truss is directly the reverse of all Trusses heretofors in use; which being convex, tended to enlarge the dimensions of the rupture opening. Is a of opinion that the union of Surgical design & mechanical structure in this instrument render

it what has long been the desideratum of Prac-tical Surgeons in Europe and America.' Professor Moit also in lecturing upon Her nia, recommends Dr. Hull's Truss to the ex-
