ern Practice, in his second cilition, under the subject of Hernia, remarks "D. Hall is exclusively entitled to the credit of first adapting the true Surgical principle fee the radical care of Hernia. He happily conceived the idea that the pad of the Trues should be so constructed the pad of the Irus should be so constructed as simply to support the muscular fibres around the ring or aperture as much as possible, in the state in which they are maintained in perfect health. Unless this be attained the parts can never recover their natural tone, whatever may be the degree of pressure applied. "

Samuel Ackert M. It is his availant of

Samuel Ackerly, M. D. in his excellent edition of 'Hooper's Medical Dictionary, under the head of 'Truss,' after enumerating the villa resulting from the use of the defective trusses formerly wern, says, 'This evil was not fally remedied until Dr. Amos G. Hull, of New York, turned his attention to the subject, and by his improvement in the construction of trussee, has rendered it certain that all recent rup-tures and those of children, may be permanent ly cured, and those of old people and of long standing, may, in many cases, also be remedited. The pid of Dr. Hull's Truss is conears. and not convers and hence the raised circular margin. by proper adaptation, presses upon the sides of the hernial opening, and tends to close the aperture and cure the hernia.

the aperture and cure the hernia. M. L. Knapp. M. D. late Physician and Surgeon to the Baltimore General Dispensary, in a communication to Doctor Hull, says: I have applied your trusses in acceral hundred cases during the last three years. A great many upon whom I have applied your trusses, have been radically curedy and some of these were cases of long standing, where all other trusses had failed. I send you a note of thanks from Mr. P. a citizen of great respectability, who was cured of a bad scrotal rupture, of thirty-five years standing, by wearing one of thirty five years standing, by wearing one of your trusses for two years. He had worn de ther trusses twenty nine years. His son, also, aged 16 years, ruptured from his infancy, was cured under my care in less than two years.—
A case of scrotal rupture, of twenty years standing, in a labouring man forty years old, was
cured under my notice by one of your trusses
in six months. A case of groin rupture, from
lifting, in a labouring man, thirty years old, on
whom I applied one of your trusses, the day afer the injury, was cured in three months—
Experience alone, can make known to the Suryour the full powers and excellence of these ured under my care in less than two years .geon the full powers and excellence of these instruments. Your trusses are exclusively preferred by the Professors in both of the Medi al Schools in this city, and the Faculty in gen-

Baltimore, January, 1850.

Valentine Mott, M. D. Professor of Surge ry, says, The great and signal benefits which are produced by this Trues, result from its strict subservience to, and accordance with Scientific and Burgical principles.

The operation and effect of this Trues is directly the reverse of all Trusses hereisfore in use; which being convex, tended to enlarge the dimensions of the runture popular. Land

the dimensions of the rupture opening. 'Lam of spinion that the union of Surgical design & mechanical structure in this instrument render it what has long been the desideratum of Practical Surgeons in Europe and America.'

Professor Mott also in lecturing upon Her its, recommends Dr Hull's Truss to the ex-

CONGRESSIONAL

TWENTY-PIRST CONGRESS. SECOND SESSION

IN SENATE

Monday, December 20th, 1850
Thiving ston. of Louisiana, and Mr.
Living ston. of Louisiana, and Mr.
Living ston. of Louisiana, and Mr.
The President profum, presented the following letter from the Servetav of the Treasury, which with the accompanying documents were, on motion of Mr. King, ordered to be printed.

printed.

TREASURY DEFARTMENT.

17th December. 1850.

Sin: The Senate having by a resolution of the 26th of May, 1850, directed the Secretary of the Treasury to report to the Senate within the first week of the next session of Control of the Amount of the Senate within the first week of the next session of the Senate within the first week of the next session of the Senate within the amount of the Senate within the senate session of the senate within the senate session of the senate within the senate session of the senate session ses Congress, a statement shewing the amount that would be returnable to the merchants of the United States, should the bill reported to the Senate, from the Committee on Finance. the Senate, from the Committee on Finance, during the present session, to exempt merchandize imported under certain circumstances. From the operation of the act of the 19th of May, 1828, entitled, 'An as in alteration of the several acts imposing duties on importance a law,' and the Department having no means of furnishing the information from its own records, or those of the custom houses, an invitation was given, through the public paper, and by the aid of the collectors, to those merchants who had imported goods un-

papers, and by the aid of the collectors, to those merchants who had imported goods under the circumstances mentioned in the bill, to communicate the fact.

The annexed paper, marked A, will shew more particularly, the means adopted and the ture of the information requested.
In consequence of these measures communi-

In consequence of these measures communications have been received from various ports the result of which is given in the accompanying statement, marked B: by which it appears that the amount returnable, in the event referred to, would be \$160,433 32.

It is to be observed, however, that this in-

formation is derived altogether from the exformation is derived altogether from the exparte representations of the individuals interested. The Department, having no means of ascertaining their correctness, has not deemed it necessary to do more than extract the sums stated to be returnable.

It is deemed proper to add, that, from the proportion which the amounts appearing to be proportion which the amounts appearing to be returnable, at different ports, bear to each other and to the aggregate amount, there is reason to suppose that the statement is incomplete. And this belief is strengthened by the circumstance, that, although the 1st of October last, was the time fixed by the Department, for the transmission of the statements for the differents parts, they have partment, for the transmission of the state-ments from the differents parts, they have continued to be sent, as well by collectors, as individuals, almost to the present time; several having been received within the pre-

Thave the honour to be, very respectfully.

Your obedient servant.

S. D. INGHAM,

Sceretary of the Treasury.

To the Hon, the President of the Senate.

Mr. Sandford presented a memorial from Richard Ward; of New York, stating thather had obtained a patent for the invention of a

Richard Ward; of New York, stating thather had obtained a patent for the invention of a peculiar description of rail-ways, useful for the purpose of lauling up vessels for repair, and offering to dispuse of it to Government for the use of the Nayy. The memorial was referred to the Committee on Naval Affairs.

The resolution of Mr. White, relative to donations of public lands to the Institutions for instructing the Deaf and Dumb; the resolution of Mr. Sprague, concerning the duties and fees of American Consuls in foreign countries; the resolution of Mr. Baker, touching the Northern Boundary line of the State of Illinois, and the improvement of the post-route from New Albany to St. Louis and the resolution of Mr. Hendricks, relative to the establishment of certain enumerated Post-routes in Indianna, were considered and adoptroutes in Indianna, were considered and adopt-

MOUNTED TROOPS.

The bill to authorize the mounting and equipment of a part of the army of the Unit-

quipment of a part of the rimy of the United States, was taken up, and passed, the Senate as in Committee of the Whole.

On the question to engross it for a third reading, air. Sprague inquired shelter any information was before the Senate in relation to the mount of expense which would be incurred by the passage of this bill, or in relation to the necessity of the measure.

Mr. Benton said that the bill had passed the Senate at the last Session. The amount of the expense was stated in the bill itself. He had not distinctly heard the inquismade by the gentleman from Maines but should be happy to give any explanate which might be desired by honorable Senato on the subject.

on the subject.
At the suggestion of Mr. Holmes, the bilk

was again faid on the table.

EXECUTIVE BUSINESS.

On motion of Mr. Sandford the mate pro-

siness, and spent a short time in secret sea-TRIAL OF TUNGE PECK

At 12 o'clock the Senate resolved diself in the Court of Impeachment for the crial a Judge Peck, of 1.
[The charge allegal against the House of Representatives, in the senate of the House of Representatives, in the House of Representatives and the House of Represe
