New Hope, July 13th, 1831.
Dear Sir: I have received a copy of your tree of the 25th ult to Mr. Bersien and my dr. forwarded by him from Washington, being to an allegation made in the newsours, that Gen. Jackson had required, outh a Member of Congress, of Messes, and h. Berrien and myself that our families ould associate with Mrs. Eaton. I had all noticed the publication in the Telegraph so intrest the public man and the rest in which you refer, and another of the same import in a New-York paper of an earlier date, and supposing it probable, in the existing state of the public mind, that the discussion would take such a range as to involve all parties to that transaction in the necessi ty of making explanations. I had commences the preparation of copies of a statement tween Gen. Jackson and myself on the same subject, intending as soon as they could be completed, to send one to him and another to yourself. Upon the receipt of your letter. I immediately wrote you a note, excressing an intention to wait for the further comparis n of our recollections before I made my deter-mination as to the disposition of my statement. But two articles in the Globe of the 11th inst. dent to require an intim to intercourse between the fimilies of Messrs. Branch and Ingham, and myself, and that of Major Eaton, but to express with equal clearness his expectation that when he gave large or general parties. Mrs. E. should be invited—and it was my purpose to deny altogether his light to interfere in this matter. The replies of the other gentlemen were, according to my fore my letter was mailed, and arr. sted its prodifferent view of this matter since your letter to me before referred to was written. I could not otherwise reconcile Year remonstrance against a publication of what you then deem-ed a confidential conversation, with the auto the interests of Georgia, at that particular juncture.

My remembrance of this conversation is moreover confirmed by a recollection of what occurred on my subsequent interview with the President, in which a particular reference was made to it. When he spoke of a combination between Meysra, Incham and Branch in its nature offensive. what I have
I have the honour to be, very respectfully,

vogr ob't serv't S. D. INGHAM. Hon. RICHARD M. JOHNSON. Mr. Inghan's Statement, a copy of which was enclosed in his letter to Cot. Johnson. On Wednesday, the 27th of January, 1831. Col. Johnson of Kentucky, waited on me in the Treasury Department, and after some preliminary conversation in which he expresand his great regret that my family and that of Mr. Branch and Mr. Berrien, did not visit Mrs. Eaton, he said that it had been a J. came to my house, and said that he ough President was resolved to have harmony, and would probably remove Mr. Branch, Mr Berrien, and myself. I replied to Col Johnson, that in all matters of official business. In the descent designated to my place. In the executing of the same Col. J. called again, and informed matters of official business. of my best faculties and the employment of my time, in the public service. As to the family of Mr. Eaton, I felt an obligation on me not to say any thing to aggravate the difficulties which he laboured under, but to obtain a public of the control spectable character disposed to be social was readily admitted, without reference to the circumstance of birth, fortune, or station which operated in many other places. That we had no right to exert official power to regulate its social intercourse. That Mrs. Katon had never been received by the society here, and it did not become us to force her upon it; that my family had therefore not associated with her, and they had done so with my approbation, and that the President ofight not, for the sake of his own character, to interfere in such matters. But if he chose to terfere in such matters. But if he chose to exert his power to force my family to visit any body they did not choose to visit, he was interfering with that which belonged to me. and no human power should regulate the soand no human power should regulate the so-cial intercourse of my family, by means of official or any other power which I could re-sist. If I could submit to such control I should be unworthy of my station, and would lespise myself. That it was eminently due o the character of the President to have it anown that he did not interfere in such mat-

general sense of the community of which I tion growing out of your letter, its apparent | ters and that the course we had pursued was preservative of his honour and political stand-ing. I had taken my ground on mature re-flection, as to what was due to my family, to my friends, and to the Administration, without any prejudice against Major Eaton or his wife, and had fully determined not to change it, whatever might be the consequence.
Col. J. said that he had been requested by
the President to have a conversation with the

secretary of the Navy and the Attorney General also; but, from what I had said, he supposed it would be of no avail. The President had expressed a hope that our families would have been willing to invite Mrs. Eawould have been willing to invite saist ton to their large parties, to give the appearance of an osten-ide intercourse, adding that he was so much excited that he was like a rearing lion. He had heard that the lady of a foreign minister had joined in the conspitation of the constitution of the constitutio ev against Mrs. Eaton, and he had s that he would send her and her husband home if he could not put an end to such doings.—
I replied that it could hardly be possible that the President contemplated such a step.—
C. I replied that the service such a step.— Col. J. replied that he certainly did; and again remarked that it seemed to be useless for him to see Mr. Branch and Mr. Berrien. I told him that each of us had taken our course, upon our own views of propriety, without concert; and that he exist not to consider me as answering for any out myests. He then proposed that I should meet him at Mr. Branch's, and invite Mr. Berrien that evening at seven o'clock; which was agreed to. Col. J. came to my house about 6, roll we went up to Mr. Berrien's, having hist sent for Mr. Branch. On our way to Mr. Berrien's, Col. J. remarked, that the President had informed him that he would invite Mr. Branch, Mr. Berrian, and myself, to meet him on the next Friday, when he would inform us, in the presence of Dr. Ely, of his determination; and if we did not agree to comply with his wishes, he would expect us to send in our resignations. Upon our arrival at Mr. Berrien's, Col. J. renewed the subject in presence of him and Gov. Branch, and repeated substantially, though, I thought, me. He did not go so much into detail, nor do I recollect whether he mentioned the President's remarks is to the lidy above mentioned or to Dr. Ely—those gentlemen will better recollect. Mr. Branch and Mr. Berrien replied, as unequivocally as I had done, that they would never consent to have the so-cial relations of their families controlled by any power whatever but their own. Mr Branch, Mr Berrien, and myself, went the Branch, Mr Berrien, and myself, went the same evening to a party at Col. Towson's where a report was current that we were to be removed forthwith, of which I had no doubt at the time. The next morning, Col. sit Mis. Eaton, he said that it had been a subject of great excitement with the President, who had come to the determination of having harmony in has cabinet by some accommedation of this matter. He, Col. Johnson, was the friend of in all, and had now come at the request of the President to see whether any thing could be done; who thought that when our ladies give patties they ought to in ite Mrs. E don and is they had never returned her call if they would leave the first card, and open a formal intercourse in that way, the President would be satisfied, but unless samething was done of this nature, be had no doubt, indeed he knew, that the President was resolved to have harmony, and or having any connection therewith, I considered myself bound to maintain an open, frank, and harmonious intercourse with the gentlemen I was associated with. That the President had a right to expect the exertion of my best faculties and the employment of my time, in the public service. As to the me not the exercise of the public service with the service of the exercise of the public service. The total me not the exercise of t effaced from my memor. My own disposition was immediately t resign my office.—
In consenting to retain it, I yielded to the opinions of those in wiose judgment I had confi ence, and to my sense of what was due to the interests of Georgia, at that particular juncture.
