I recommend to you during the recess the most careful attention to the public percent at the affray.—Their farther open to you during the recess the most careful attention to the public burthens.

My Lords and Gentlemen,

I recommend to you during the recess the most careful attention to the public percent at the affray.—I have not present at th

prove an important one to the public, as it may lead to a more successful mode of treatment than has hitherto been employed in this

UNFORTUNATE ACCIDENT. A most distressing accident occurred terday afternoon, at the end of Long Wharf. A derrick had been erected, with an arm si witnessed in any climate. In a few moments the streets were inundate, the rain resembling a cataract, and descending with the most perpendicular precision and violence. In liss Majesty's dockyard, the Wolf of 102 guns, has been put up under the direction of Mr.

A liverally split, through the middle the direction of Mr. Almost Holmes, a centlement well known. milar to the one at the Bunker Hill Monu Majesty's dockyard, the Wolf of logguis, ha been put up under the direction of Mr. was literally split through the middle—the props on which she was supported having for his judgment and skill in every thing revielded to the influence of the wind. At Brockyille the large establishment of Mr. o'clock, P. M. every thing having been got in Billa Flint was consumed by fire, whether electric or otherwise we have not learned.— the apparatus. Mr. Holmes let the bell down to the bottom, a depth of about 24 feet, and and attention.
then raised it up again; and when clear of the "In recomm water a few feet, Mr. H. stepped upon a floating stage, under the bell, for the purpose floating stage, under the bell, for the purpose of just complaint, to restore general confidence in the Legislature, and to give addition. While standing on the stage under the derick gave way, when the bell came down mantates to have been accomplished. Dualities—We really wish our cottage garden was located nearer town, that the citizens generally might have an opportunity of seeing our splendid bloom of Dahtias. Those who have never seen this flower, (and very few have ever been seen in Baltimore,) can form no idea of their splendor and magnificence.

The flower is formed very much like a large camelia japonica; there are single, semidouble and double varieties; and all sizes, from a disk of two to six or seven inches drameter.

Bave way, when the bell came down users the dame down users the stage and from thence into the water, and sunk to the bottom. Hopes were entertained with that if the bell could be raised, Mr. Holmes might be preserved. A schooner was hauled along side; and, with a promptness hardly to be expected, in thirty minutes the bell was passed, in conformity with my recommendation, at the beginning of the Session with respect to the collection of Tithes, are well calculated to lay the foundation of a new system. camelia japonics; there are single, seminous to the air having deprived Mr. H. of his send disk of two to six or seven inches diameter. Their colour comprises every shade, from the purest white up to the deepest black crimson. We have about thirty varieties and about twenty of them constantly in bloom, affording a display altogether unequalted by any other garden plant. Besides this, we have succeed-

DON PEDRO'S EXPEDITION. Falmouth, Monday, August 2d, 9 o'clock, tunately Walker, Commander, from the Mediterranean, has this instant arrived. Having damaged her machinery, she put into Oporto, which he left on the 18th inst.

The accounts brought by her are of a va-little ban-ried complexion, and as connected with the Lisbon h. Portuguese contest, of considerable interest. In the first place, they all concur in representing the spirit of the troops and people of Oporto as being excellent, and devoted to the cause of Don Pedro; but in other respects throple, a es do not give account of any advance made fleet, con by him, or any immediate prospect of such a five two-result. In the next, they bring the highly important intelligence of the boldness of Don Migrel's squadron, which has come up the coast, and was, when the Alban sailed, about there from the state of the state of

three leagues to westward of the mouth of the Dato.

With respect to matters at Corto, the accepts bring nothing new. Don Pedro was limited to the town and suburb of Villa No despatch va. on the opposite side of Douro. He has protect M who had a postarlry, and cannot go beyond his outposts.

The report of a revolt at Almeida was rife in one of

wiged to withdraw part of his force in order jects, who crush this opposition. The boldness of Miguel's troops had not, however, diminished, as they had, notwithstanding the possession of Villa Nova and the strong convent of Sirca on the hill above it, gone lower down on the south side of the river, and annoyed potentiar the town with musketry. be town with musketry.

Desertions had taken place, but not to any

rest extent, and they had occurred on both des. The north side of the Douro, for some make around, was completely occupied by Don Miguel's troops, which were, by comman report, magnified to the amount of forty ate, and The garrison and population were nevertheless in high spirits, and confident of victory; and every practicable mode of fortification had been resorted to to render of irrification had been resorted to to render the town inaccessible. Provisions were became to the town inaccessible. Provisions were became at the town deficiency of material, but the village of allonga is ordinarily the great mart to the manufacture of bread to supply Oportos and Don Miguel's troops seing in possession of that, as well as the mills on the southfide of the river, within a mile and a half of the town, consideration, whe temporary incorporation was experienced. Vienna, August nience was experienced.
