MILITARY AND NAVAL MAGAZINE. PROPOSALS

For publishing by subscription, A Military and Naval Magazine, of the United States.

IN offering a new enterprise to the notice of the public, the successful prosecution of which must essentially depend upon the en couragement which that public may be disposed to bestow upon it, the Editor feels bound to accompany it with a brief, but plan and distinct exposition of his plan, and the reasons worch have induced him to think it worth the itention of his fellow citizens. be sorry to entrap any one into the support of a work, the objects of which were hidden or undefined, or capricious: on the contrary strong in the integrity of his motives and purmee, he hopes for the most liberal patronage rom those who shill be most fully acquainter with the views and designs they are called up on to approve and encourage.

The Editor is not aware that any such work as that now proposed to be published, at pre-sent exists or has ever been attempted, in the

United States: he does not, therefore, wittingy interfere with the labours of another. Per iaps. keretofore, the times have been consider ed as unpropitious, or such a werk was not sup posed to be needed: whatever may have bee the deterring cause, the Editor does not per ceive the operation of any such at the present noment. I. IRVINE HITCHCOCK and GIDEON B. SMITH

HAVE commenced the above named establishment and solicit for it the attention and patronage of far mers, gardeners, nurserymen, and the public gene-nally. The objects we have particularly in view, are tso:—First, to keep and furnish entronner to all who well-favour us with their custom, GARDEN AND FIELD SEEDS

of the very best quality; and second, to procure from
all possible sources, foreign and domestic, such
things as promise to be of utility to our country, for
either the field or garden; to test by experiment their
adaptation to our climate and soils and if found valuable, to disseminate them over the country.

The latter of these objects is the legitimate end
ard purpose of Agricultural and Hosticultural Societes, the want of which in this central part of the Uabled States being severely felt, we have undertaken
to supply their place, so far as lies in our power. In
pursuance of this determination, we have attached to
the Farmer Establishment an

As time and means permit, we shall establish aff
