POST OFFICE ROBBERY.

By the following extract from the Washigton (Pa.) Examiner, it will be perceived that the agent of the Post Office Department late losses by mail thereabouts, has been successful in detecting a roque.

A letter from a special agent in the State of Maine, appointed and instructed by the Department a few weeks since to discover the cause of certain losses upon a mail route in that State, informs the Department, that he has succeeded in detecting the deptedator, who, upon being taken before a magistrate, pleaded guilty Justice will be dealt to both these gentlemen.—Globe.

MAIL ROBBERY.

On Thesian last, Green Fan Welle Berg.

On Tuesday last, Greene Van Sickle, Post-master at Claysville, in this county, was taen up for purloining from the western mail the day previous, a letter containing a sum of money, amounting to about \$60, and commit-ted to jail in this place. We decline at present giving more minute particulars of this robbery, as Van Sickle will be shortly arraigned before the proper tribunal for trial, and where justice will be done him. But we take occasion now to state, that his detection was effected by the vigilance and well devised plans of George Plitt, Eq. of Washington city, Agent of the Post Office Department, who has evinced on this and other recent occasions, a vigilance and zeal in the all living, and only a little smaller than the discharge of duty, and an anxiety for the pub-

unscharge of duty, and an anxiety for the public security and safety of mail conveyance, by security and safety of mail conveyance, by the honourable and praiseworthy.
