Cecil County—Always has a warm contest—the republicans, majority, by repeated trials, may be put down at about 50

Kent County—also nearly balanced, but always republicans, with a majority of about 60

Queen Anne County—no federal opposition—the republican votes at the last congressional election, were almost three for one, or a majority of about 650

Talbot County—gives a republican majority of 180

Caroline County—has a republican delegation, put in by a majority of more than 300

Dorchester County—has returned four federalists—Messrs. Smoot and Bennett, republican candidates, were (averaging the two) about 200 votes behind; the federal majority therefore is 200

Somerset County—in this county the federalists have a majority of about 700

Worcester County—sends two republicans and two federalists—the whole number of votes, averaging them, gives the republicans a majority of 1

THE DEMOCRAT.

Under this much abused but ever to be respected title, I beg leave to offer a few observations and opinions to my fellow citizens, premising with the declaration of my bias, in the exact sense of the word—DEMOCRAT. The following I believe to be the only true and unperverted sense, and when a different sense is given to it, though it may arise from ignorance, might in that respect be excused, if those who abuse the term through ignorance, did not persecute and reprobate what is in itself good and true, under the mistaken assumption that it is bad thing, and a thing different from what democracy really and truly is.

I distinguish DEMOCRACY by its primitive signification and its real sense, as it is established by the constitutions of the United States and the several States; a word composed of two Greek words, the word DEMOS meaning the people, and KRATOS, power: I understand the word then, the will or power of the people, declaring and actually making the law; that law made in the manner, and by those who delegate for the purpose; that will or power executed in the same manner; which the same will directs or authorizes, by other delegates deriving their rights to execute the law, according to the people's or the public will, as by their written and declared will, (that is the law) directed. I see this meaning expressed in the Declaration of Independence, and in the introduction and details of the constitution of the United States; and the government being founded for the good of the people, and regulated by law, framed by persons elected by, and responsible to the people; this I take to be the most perfect illustration and reality of democracy, which has hitherto existed. This is my conception of what it is.

I shall now state what DEMOCRACY is not; but which impostors and enemies of government founded on human rights, confound it with, and in a mean and base manner, abuse what is good, with a name that is bad, and which is not the thing itself.

Knaves and fools call that democracy, which the Greeks called *oligarchy*, that is, a government in which there were no delegates, no representatives, no magistrates; where every man was law giver and magistrate; a state impossible in a larger space than a circle within hearing; impossible in even a populous village.

Wretches, knaves, and fools, also confound it with anarchy, which is the total cessation of all law, order, regulation or authority.

In another view, whether we are to understand this term as limited in its signification to those members of the community, opposed to the part called, and falsely called, if we judge of them by their actions, federalists; or in its more comprehensive and proper sense, as embracing all friends of the people and advocates of self-government, still should the name be dear to either sense to every man who boasts the character of an American citizen. Proud, serenely proud, must that democrat feel whom his political, or rather his country's adversary upbraids with this name, under the mistaken notion of its being a term of reproach. If it is a foreigner who calls him so, with a sneer of contempt, how silly does the animal look when the flash of truth from the eye of the republican, speaks this plain language to the heart. "I have chosen my own

MINERAL WATERS.

WE are happy to present to the public the following respectable and satisfactory testimony from some of the most eminent physicians of Baltimore, which must sufficiently establish the utility and medical virtues of the Artificial Mineral Water, as prepared by us, and which places us beyond the reach of envy or calumny.

HANNA AND HAWKINS.

No 1.

BALTIMORE, July 19, 1809.

Messrs. Hanna and Hawkins
Gentlemen,

HAVING had frequent occasion to prescribe the factious water manufactured at your laboratory, I take great pleasure in testifying to your virtues. I can assure with truth, that my expectations have not been disappointed in a single instance, and I have no doubt, but (where judiciously administered) they will become a valuable acquisition to our city. I cannot but anticipate sufficient utility and discernment in the citizens of Baltimore to remunerate you for your labour and expense, and beg of you to accept of the assurance of my disposition to promote the interest of so useful an establishment.

Signed
NATHL. POTTER.

No 2.

Messrs. Hanna and Hawkins
Gentlemen,

THE establishment of your Artificial mineral water warehouse, cannot fail to be highly beneficial to such citizens of Baltimore as labour under obstructions of the stomach or bowels, with various other morbid complaints of such a description as the celebrated Bergman's method, that every natural mineral water could be fully imitated by every intelligent chemist, if accurate analysis had discovered its component parts.

I am, Gentlemen, your obedient servant.

Signed
JOHN CAMPBELL WHITE, M. D.

Baltimore 22d July, 1809

Messrs. Hanna and Hawkins
Gentlemen,

I AM of opinion, that the artificial mineral waters prepared under your direction, will be found highly beneficial to the citizens of Baltimore, and very little inferior in medicinal virtues to the natural mineral waters of our country. They are preferable, therefore, by me, in all cases where mineral waters have proved salutary.

Your obedient servant,
Signed
ASHTON ALEXANDER.

No. 4.

Messrs. Hanna and Hawkins
Gentlemen,

IT gives me very sincere pleasure to find an establishment such as yours, so likely to be permanent in Baltimore; as it affords to invalids, whose cases require the use of mineral waters, an opportunity of receiving all the advantages they produce, without the necessity of taking a long journey to obtain them at their source. From the manner in which they are prepared, I do not consider them inferior to those produced from the Springs, and shall think it my duty to recommend them to all those whose cases require such remedies.

With every wish for your success, I remain, Gentlemen, your obedient servant,

Signed
A. HAMILTON,
N. Gay-street.

No. 5.

Messrs. Hanna and Hawkins
Gentlemen,

HAVING examined the artificial water as prepared by you, I am of opinion they are a very good imitation of the natural waters of those Springs, and can recommend them as not only salutary but highly beneficial in all those diseases where the natural waters have been found useful.

Signed
JAMES SMITH.

July 26th, 1809

Messrs. Hanna and Hawkins
Gentlemen,

YOUR preparations of mineral water I consider as imitations of their originals, they will therefore, no doubt, be often referred to by the Faculty, and add very much to the comfort and convenience of the public.

Signed
JNO OWEN.

Rogers' Patent Vegetable Pulmonic Detergent.

For sale at P. BYRNE'S Law and Miscellaneous Book-store, No. 130, Market-street—either by the dozen or single case.

P. BYRNE does not undertake to expatiate on the merits of this justly celebrated medicine; its salutary effects will be felt in its effects—and the reliance of the inventor on its merits in all pulmonary complaints, will be felt in the following advertisement.

No Relief—No Pay.

TO THE PUBLIC,

There is perhaps no medical observation better established, none more generally confirmed by the experience of the best physicians, of all ages and countries, and none of more importance to the practitioner, than the fact, that many of the most difficult and incurable complaints originate in neglected colds. In a climate as variable as ours, where the changes of weather are frequent and sudden, and unexpected, it requires more care and attention to guard against this subtle and dangerous enemy, than most people imagine, or are able and willing to bestow. Hence the number of patients afflicted with coughs, catarrhs, asthma, consumptions, and other affections, and hence the fatigues of rational and absurd remedies, cured by the dear old and illiterate. The many cases of the kind which I have observed, the pernicious consequences of inflaming drugs, which are in practice the disempowerment of every cold in practice from remedies highly recommended, and my own predisposition to pulmonary complaints, were strong inducements for me to consider, whether a compound consisting of mild vegetable substances, could not be invented, more free from the usual objections of practitioners, and better calculated to avert the threatening destruction of the lungs.

I have the satisfaction now to offer to the public such a remedy, under the name of the VEGETABLE PULMONIC DETERGENT, well adapted to various constitutions and habits, and to be used with the fullest confidence that I could recommend in a great variety of cases far superior to others intended to arrest the same: purpose. Aware of the impossibility of universal remedies, destitute of the despicable and versatile character of Chauliun, I am too proud of the character of an honest man, ever to desire to profit by the ignorance of the sick and afflicted, whilst I combine the use of my medicine to the effects of a suppressed perspiration in their incipient state only, I flatter myself with the hope, that this candid appeal to the understanding of an enlightened public will ensure to my discovery a better sale and longer life, than the greater part of their boasted panaceas deserve. I am perfectly satisfied, that such practitioners, who have frequently to combat the effects of a suppressed perspiration, and do not neglect the use of the lancet and other evacuations, whenever they are indicated, will prize the medicine, provided they give it a fair and impartial trial, in the list of their most favorite remedies; that I am sure will substitute it for the most dangerous, pernicious and atheumatic, for thorough drows, pretence of Balsams and Symples, and that the most sensible benefit derived by such a dose, according to my directions, will prove a far better test of its value and usefulness, than ever so many certificates I could print upon a flattering public.

GEORGE ROGERS

No Relief—No Pay.

This motto may be deemed ostentatious by some, and amounting to a positiveness that the medicine will invariably effect a cure in any state of disease, like a miracle, the proprietor is far from believing that this medicine will render mankind immortal, but he is fully sensible if taken seasonably, and according to the directions, it will either prevent or cure, and if unfortunately a cold should thereby alternate, and prove a long life, this is an inducement for him to make the above venture, should the contrary appear in any instance, as in some it possibly may, the money for the medicine will be cheerfully refunded by the person who may vend the same.

G. R.

N. B. The above named medicine is secured to the subscriber by letters patent from the President of the United States, and prepared at his dispensary in Northampton, county of Hampshire, and State of Massachusetts.

PATENT MEDICINES.

JUST RECEIVED, AND FOR SALE BY

GIDEON WHITE,

A FRESH SUPPLY OF

Lee's Genuine Patent and Family Medicines.

Which are celebrated for the cure of most diseases to which the human body is liable, viz.

Lee's Warm Destructive Laxative. Celebrated for the cure of ring-worms, tetters, and all eruptions of the skin, rendering it soft and smooth.

Lee's Elixir. Celebrated for the cure of ring-worms, tetters, and all eruptions of the skin, rendering it soft and smooth.

Lee's Elixir of Nigella. Celebrated for the cure of ring-worms, tetters, and all eruptions of the skin, rendering it soft and smooth.

Lee's Grand Refractive. Celebrated for the cure of ring-worms, tetters, and all eruptions of the skin, rendering it soft and smooth.

Lee's Gentle Eye Water. Celebrated for the cure of ring-worms, tetters, and all eruptions of the skin, rendering it soft and smooth.

Thousands of our fellow citizens have received benefit from the above medicines, when reduced to the last stage of disease, and many families of the full respectability, have given public testimony of the astonishing cures performed with the above preparations. The proprietors are well assured, that a single trial of any article here enumerated, will convince the most prejudiced person of its utility.

Pamphlets containing catalogues of cures, &c. may be had gratis, at the above place of sale, sufficient to confirm our assertions. Were we inclined to publish all the certificates which are in our possession, we might fill a folio volume; but we never mention the names of any person, but those who are well known to be persons of strict veracity, and not then without their approbation.

Those medicines have been made known for a number of years to the public, and nothing can speak more in their favour than their rapid sale. To detect counterfeiters, it is necessary to inform the public, that they must be particular in applying as above, and observe that no one can be genuine without the signature of Richard Lee & Son.

N. B. Even and every medicine above enumerated have got their directions, describing their mode of use in the most perfect manner.
