

French Man by the said Drury suspected to be the said Mons
 Castene who together with the said Northern Indians imbrued
 their hands in so much Protestant Blood in New England and
 since so near us but three Years ago in Shenectot twenty Miles
 above Albany which if so your Excellency may suppose their de-
 signe to be evil and our condition deplorable if not timely preven-
 ted by putting a stop to their further incursions all which I leave
 to your Excellency's Wisdom in the management of so great an
 Affair and altho the hard censures & calumniation of some ill
 affected Persons may and are endeavouring to bring me in dis-
 esteem with your Excellency yet I shall acquiesce in this being sup-
 ported I hope with the Truth and innocency of a good
 Conscience and as I have hitherto approved myself faithful
 to their Royal Majestys Interest here I hope to continue the same
 to your Excellency as being under them our Supreme and always
 Remain

Your Excellency's humble & most humbly Devoted
 To his Excellency Lionel Copley Esq^r Capt^m Gen^l James
