

Town where they stay'd about Eleven Days, during which time the War
 Captain of the Shawans made an Agreement, with Panquash Dixon Bussey
 Captain John, Simon and the Indian River Queen to cut off all the English
 Inhabitants in Maryland and Pennsylvania, and were promised by the said
 War Captain to be assist'd by the Seneca Indians in conjunction with the
 French, which French were to land on the Seaboard side of Somerset
 County; and when the Shawan Indians went away, Indian Joshua and
 Pattasahook went with them, who returned again in about Six days
 in Company with another Shawan Captain and twenty Shawan Indians
 more, and that two Days after their Return all the Susquehanna Indians
 went over to a Place called Wanasocum in Company with the Shawan
 Indians where they gathered the several Nations of Our Indians
 together, and had their War Dances for Six Nights, with their
 Arms Faces and Part of their Heads painted, their Tommahauchs
 in their hands, with the firing of Guns and two Drums beating, during
 which Time it was unanimously agreed by our own Indians and the
 Shawan Indians to be assist'd with the Powers abovementioned, to destroy
 the English (whom the Shawan Indians often said were no more than
 Children) And further this Examinant saith that whilst he was at
 Wanasocum he was told by an Indian River Doctor that he had
 prepared a great Quantity of Poison, with which he intended to infect
 the Water in Order to destroy the English. This Examinant likewise
 further saith that Sam Panquash told him they had got a great
 Number of poisoned Arrows pointed with Bras which were lodged
 in a little House upon a small Island about three Miles within a
 very thick Swamp. This Examinant further saith that the Shawan
 Captain last mentioned, and his Indians have been gone about 12
 Days.
