308. Yours of the 5th Inst^t we have received. All the Flour now remaining in your Hands, together with what you may collect, you will have transported to George Town and delivered to M^r. Thomas Beall jun^r and, as the Route is changed we hope it will, in some measure, remove the Difficulty of procuring Waggon. We request you to have the Shorts and Bran sold to the best Advantage you can, for the State, unless there is a Continental Quartermaster at Frederick who will give a Receipt for them, and think you have acted very properly in not separating the chiddings from the fine Flour, in this manner we wish you to have the whole of the Wheat manufactured.

Wm. M. G. 2^d
Col. Thomas Price
