

Sessions is come to so good an Issue this being now the third Year since your first mee-
 ting together which by the course of law would have put a Period to this Assembly some
 time in September next I am in his Majesty's behalf to thank you for being Instrumental
 in the making so many Good Laws which its hoped will tend to the glory of God his Majesty's
 Honour and the Good of your Country being the three chief and principal Ends for which
 you were first and have hitherto been called together and I think the Country is now per-
 fectly furnished with such a Body of Law as will answer those three ends if the same are put
 in due Execution without which they will prove useless for Laws unless put in Execution
 become but a dead Letter therefore do recommend to you Gentlemen that are Magistrates
 to have a particular Regard and care in that matter hoping there may be no further
 Occasion of calling a new Assembly before next Spring and what now remains is only
 to let you know that in his Majesty's name I do discharge you and thereupon they were
 dissolved

Thus Ended this Assembly
 Hen. Denton Clerk
