WATER WORKS,

It is Proposed to Bond the Town to Secure the Desired End.

Our town has been stirred from centre to circumference during the week over a plan recently originated for supplying the city with water. On the street, in the stores, shops and other places where men do congregate, discussion has run high. Two petitions are out, one of which proposes to submit the question to the voters of the place, the other to the taxpayers. The plan upon which the necessary funds are to be raised for the proposed water works is embodied in two blls, now in the hands of Senator Rogers, one of which empowers the city council to levy a tax of 35 cents on the \$100, and the other to issue \$30,000 in bonds bearing interest at 6 per cent. The bonds are to be so drawn that \$1,000 of the principal shall be due and payable at the expiration of one year from the date of issue, and that \$1,000 shall be paid every year thereafter until the whole amount is paid. They are to be issued in sums of not less than \$50 nor more than \$1,000. The bonds also, the bill provides, shall be

free from all state, county and municipal taxation. The general sentiment of the people is in favor of water works, but unless i is demonstrated that the cost will be much below \$30,000 it is not likely the people will vote for the outlay. If the estimates given by a correspondent elsewhere in this issue are correct the city can ill afford to go on with the enterprise. Many are in favor of water works provided the outlay will not be over \$20,000. To bond the town for any greater amount, it is claimed, the necessary taxation will be oppressive.

Let the good work go on and let there be proper estimates made demonstrating the actual cost before a vote on the question is taken.

Verdict Against a Railroad.

The case of John W. Watkins, of Mt. Airy, Md., vs. B. and O. Railroad, which was occupying the attention of the Frederick county court last week, was concluded, the jury rendering a verdict in fayor of Watkins for twenty-five hundred dollars. In August, 1892, Watkins, in company with his two sons and sonin-law, was returning from Washington Grove Camp-meeting to Washington, D. C., when it was alleged that they were drunk and abusive, and threatened to throw the conductor from the train Upon their arrival in Washington, they were all placed under arrest and fined the two sons having been incarcerated in the lockup over night, Watkins sued for \$5,000 for false arrest and imprisonment. His sons and son-in-law have entered similar suits, which are now on trial. Watkins was represented by Wm. P. Maulsby, Jr., of Frederick, and Alexander Kilgour, of Rockville. The Baltimore and Ohio Railroad Company was represented by Charles W. Ross, B. F. Reich and John Newman, Frederick.

Run Over and Killed.

Mr. William H. Barrett, foreman of a Railroad, was accidentally run over and killed Wendesday at Bridewell Station, was mutilated, was taken to his home, which is about one mile west of Elk Ridge. Mr. Barrett was about fifty-five years of age and had been in the employ of the company since he was a young He formerly lived and at the time of his death owned property in Ellicott City. He leaves a wife and several children. One son, W. F. Barrett, is agent for the Baltimore and Ohio at Branchville. Two of his brothers are in the service of the Baltimore and Ohio.

A Boulevard Route.

Just what the promoters of the proposed bouleyard from Baltimore to Washington have fully determined upon it is hard to say. What is said to be a popular survey, already staked off, leaves Edmondson avenue a short distance this side of Catonsville. thence runs past the rear part of Mr. Sinclair's property, through Mr. Helfilch's property, thence through the property of Mr. Wilson, crossing the pike to the south side to the old Feelemyer property, passing through Mr. Kennedy's to the lands of the Gray Manufacturing Company to cross the river a short distance west of Thistle factory proceeding in the direction of Laurel. It is said in the event this route being adopt ed a loop will be made taking in Ellicott City.

Strange Action of Buzzards and Crows. Justice John W. Streaker, of Jonestown, was an eye witness to a strange scene the other day. Observing a multitude of buzzards making savage swoops at something on the ground found they were endeavoring to kill a red fox. The fox was badly scared and making frantic efforts to escape On Mr. Streaker scaring his termenters away he took to the woods followed by a lot of crows which attacked him in a similar manner. It is thought extreme hunger caused the birds to make the attack.

Entertainments at Public Schools.

The Public Schools of Ellicott City celebrated Washington's birthday on Wednesday afternoon with appropriate exercises. Each school had its celebration independent of the others. The national anthems were sung, poems read and recited, and original essays by the scholars were also given. The teachers of the schools use every endeavor to impress on the minds of the children, the principles of patriotism, love for country and veneration of its "immortal father"-Washington.

The J. O. U. A. M., Observes the Day. The Junior Order of United American Mechanics celebrated the 22nd of February in the evening in the New Assembly room attracting a large assemblage. Quite a number of the order; principally from Baltimore, were present. Dr. M G. Sykes, Mayor of Ellicott City, presid ed. The program consisted of an address of welcome by Rev. D. M. Browning, prayer by Rev. H. H. Douty, of Alberton; and addresses by Rev. Henry Branch, D. D., who was orator of the evening, and Mr. Riggs, of Baltimore Music was furnished by the choir of Emory M. E. Church and the Thistle Cornet Band. Mrs. Chas. A. Herrmann presided at the piano.

NOT A HOODO, But be Careful What We Do Do is Echoed By a Correspondent.

Messes. Editors: editorial last week was advice timely and pointed. Let our Solons take heed when you advise thus: "To do what they can do, and be careful, what they do do, not try do what they can't do, or their business might be a hoodoo."

I believe we ought to have a reassessment of all the property of the State and that every one should be compelled to taxes on their real and personal property. But neither of the assessment bills, Senate or House, will do this. Either one will cost two hundred and fifty thousand dollars to execute them. What then? All the property, real and personal, except bonds, owing to the debe lowered that much, and as a necesthat? Better let the assessment go for get rid of the antiquated thing. Frame one in keeping with the age in which we live. No ship can make time with her coppers loaded down with barnacles. Besides she is too short and out of style. Let her have length, breadth and style, steam in the place of canvas-something that every Mary-

lander will be proud of. Then We can do what we ought to do, Being careful of what we do do, Not trying to do, what we can't do: Yours truly, J. W. II.

WEST FRIENDSHIP, Feb. 17, 1894. The Proposed Water Works.

While the taxpayers of Ellicott City are just now interested in the all-absort ing question of bonding the city for water works, it maybe well to consider one or two facts bearing upon the subject. The interest on the \$30,000 will produce at 6 per cent. \$1,800; bond to be retired \$1,000; operating expenses in all branches, say \$1,000, aggregating \$3.800. The resources will be, from licenses, about \$1,100; tax on \$600,000 approximate city's basis, at 35 cents on the \$100, \$2,100, making the maximum available amount \$3,200, which leaves an annual balance of \$600 to the debit of the taxpayers. Then, the estimated cost of piping the Patapsco, according to an engineer's estimate will not be less than \$1,000.

Again, the expense of piping twelve hundred yards of granite bed—the estimated distance-the cost of which per yard I do not know, will be another item in the proposed undertaking. If this showing is not correct, Messrs. Editors, the true data, to which the taxpayers are justly entitled, maybe stated, perhaps, by the City Council.

TAXPAYER. Feb. 21, 1894.

The Proposed Electric Railway.

Messes. Editors: I have just had presented to me a petition from the Frederick turnpike company against the Electric Railway Co., using a part of the bed of the pike. This company has a road way through Baltimore, Howard and Frederick counties, sixty feet wide. I don't know what taxes they have paid. I do know that the road bed is assessed to the farmers through whose lands it passes, and that the charter of the company requires it to keep a macademised road bed twenty feet, and that in the last few years owing to the fact of travel being diverted to other channels, the company have narrowed this hard road bed to ten feet without reducing the rates of toll. Twothirds of the pike has grown up in grass, and is used as a pasture by quite a number of persons. Let the electric car come right along. Our wide awake Senator will see to it that the corporation will be kept within proper bounds. Opposition to these improvements comes from old fogies, who are eternally lamenting, what was done and how we got along "fo' de wah." IMPROVEMENT. THIRD DISTRICT,

Correction of an Error. EDITORS OF THE ELLICOTT CITY TIMES, Gentlemen: I observe in your paper of last Satur

day's date an error as regards the stock he married Miss Olivia, daughter of the of the Baltimore and Fredericktown Turnpike Road Company, held by the State of Maryland. Regular semi-annual dividends are declared and have been for decades of years back, the State dividend being \$110 per annum. The State dividends have not been collected for the past three and one-half years. Yours truly, WM. W. TAYLOR.

DELEGATE WOLFE'S BILL

Delegate Wolfe's bill providing for private weighing, and the features of which have heretofore been given by Tue Times, is on its way through the House. It had its first reading last week.

FOR LOCAL POLICE PROTECTION. Senator Rogers has introduced a bill providing for police protection to such neighborhoods as desire it. At present the pay for the services of constables in several villages and neighborhoods is too small to secure the most efficient service Mr. Rogers' bill provides that the county commissioners may appoint police offi cers for designated sections, the pay of such officers not to exceed forty dollars a month, and to be raised by taxation upon the taxable property in the section for which the officer is appointed. The tax must not exceed twenty cents on the undred dollars.

HOWARD COUNTY ROAD SUPERVISORS. Mr. Wolfe will introduce a bill permitting the county commissioners of Howard county to increase the number of road supervisors in their discretion. The bill provides that on the first of March in each year, or within thirty days thereafter, the commissoners may appoint one or more supervisors for each district of the county to superintend the repairs of the public roads.

GENERAL STATE APPOINTMENTS. The Governor's local appointments for Howard county were given by The Times, last week. Beside he has made the following general appointments:

during the session and made a speech in favor of his free-book bill. He gave figures and facts showing the results of similar laws in other States. Mr. Smith speaks clearly, forcibly and with great clearness. Senator Smith, of Caroline, in his argument in favor of the bill, declared that it is an excellent plan for carrying out the policy of taxing bachelors, as suggested by the Baltimore Sun. Other Senators made speeches in favor of the bill. That by Senator Hayes elicited loud applause. The bill, greatly to Presdent Smith's gratification, received the vote of each one of the twenty-three Senator Rogers was on the winning Senators present.

LEGISLATIVE NOTES. Senator Hubner has a bill to pay the sheriff of Baltimore county a salary in lieu of fees and to put the feeding of prisoners in the county jail with the county commissioners. The bill, if passed, will not affect the present sheriff. The Baltimore Sun says: "In appointing the live-stock sanitary board Governor Brown left off Dr. T. W. Spranklin and appointed Senator John Hubner in his place. This was a surprise to the Senator, who was not an applicant. The appointment is a compliment which the Governor desires to pay to Mr. Hubner, who has proved to be a zealous and useful Senator.

A personal encounter was the exciting incident attending the hearing of the Charles county senatorial contest before the Senate elections committee Monday evening. Col. L. Allison Wilmer, of counsel for Senator Carrico, obiected to a reflection cast upon his honor by ex-Judge Daniel R. Magruder, of counsel for Mudd, the contestant, and going up to him struck him a stinging slow in the face, knocking him back on Senator Hayes, the chairman of the com-

Our theatre-goers will again have the good fortune to witness a revival of the day by a company headed by Miss lennie Yeamans. It is no undue praise o assert that no comedy of a similar character which has been produced in recent years can compare with it in respect to bright dialogue, ludicrous situaions, and clear-cut, well cut, well-constructed story. From the rise of the curtain on the first act until the finish there is a succession of complications so skillfully interwoven and also neatly handled that laughter is incessant. The comedy is of wholesome character here are no incongruities of construction and no straining for effect. It is a perfectly even and smooth unfolding of series of excruciating incidents, the numor of which no person can resist. The part of "Jane" will be performed by Miss Yeamans, who has fairly won her laurels as a star comedienne worthy of
