LUNG ROUBLES AND CONSUMPTION
CAN BE CURED.

An Eminent New York Chemist and Scientist Makes a Free Offer to Our Readers.

The distinguished chemist, who has made a discovery of a new and absolute cure for Consumption, Pulmonary Tuberculosis and all bronchitis, throat, lung and chest diseases, stubborn coughs, asthma, and all conditions of weakness, loss of flesh, and all conditions of wasting, has decided to make a free offer to all different of his New Discovery to any afflicted reader of THE TIMES.

His "New Scientific Treatment" has cured thousands of cases of Consumption, and he considers it a simple professional duty to suffering humanity to make this offer.

Science daily develops new wonders, and this great chemist, patient experimenter, for years, has produced results as beneficent as the sun, and he has now made his great genius. His assertion that lung troubles are a consumptive disease, is supported by the affidavits of his American letters of gratitude filed by his heart-felt friends, and the testimonies of medical men, from those cured in part of the world.

Medical experts concede that bronchitis, chest and lung troubles lead to Consumption, which, untreated, ends in death, and a painful death.

Simply write to T. A. Stocum, M. C., 98 Pine Street, New York, giving postoffice and address, and the free medicine will be sent you, and the doctor will be glad to advise you of his generous proposition.

Persons knowing themselves indebted to THE TIMES for subscription should remit as promptly as possible.
